Message from the Board of Directors

Dear Shareholders,

In 2015 Thailand has been through many crises, for instance, low-priced agricultural products and incredibly high household debt. When the debt rises, the power of purchase dramatically decreases and resulted in low customer traffic flow in many shopping malls and department stores. Inevitably these uncontrollable situations affected both retailing business in overall and our main income from chain stores business, which located in shopping malls and department stores. To survive these crises, enterprise competitions and cross promotion are increasing continuously. This led to the three consecutive years of the decreases of the Company's gross sales.

Many years we have put an effort in expanding our success; especially in 2015 we adjusted the product portion in our stores. By this, the non-book product sector will be larger in order to cover continually declining sales of print publications. In addition, we have tried to cut down expenses and losses and maximized our effectiveness and performance as much as we could, for instance, decreasing the slow inventories, closing down the unprofitable branches, and intensively paying attention to the potential of new locations for our new branches.

The Company has also developed the online services: www.se-ed.com, m.se-ed.com, and SE-ED application, in order to catch up with rapid changes of customer behavior in the future. Ultimately we would like to provide faster services to the customer regardless of any platforms or models, for example, faster paying service, flexible pickup and delivery service. Now the customer can place an order and pay on delivery in Bangkok Metropolitan Region. Not only book products, we are trying to supply the stock of the

non-book product faster to satisfy the lifestyles of the targeted groups.

In addition, the Company has expanded business into educational field in three levels: the basic, vocational, and higher education, by taking significant role in finding the key to improving the educational achievement, which is the main obstacle of Thailand. For now, we have emphasized on improving Communicative English, English reading and writing skills with Teaching Process, mathematics, and STEM Education (STEM - an integration of science, technology, engineering, and mathematics.)

Due to our effort above, even though overall sales keep declining and many companies in publishing business in SET have operated at a loss and have low profitability ratios, we are still able to moderately maintain our net profits.

The Company believes that the internal economic issues cannot be solved within a short period of time due to the condition of the global economy which is also facing a lot of major problems, leading to a domino effect across the world. In addition, every employee in the company must keep up their hard work in order to maintain the profits, and at the same time, be ready to maximize the profits if they could.

In 2015, the Company still receives awards and maintains excellent performances in many categories as followed:

- Received SET Social Enterprise Investment Awards from The Stock Exchange of Thailand in SET Sustainability Awards 2015. This award is for the registered companies that prominently supported social enterprise to encourage the companies and employees that had the intention of sustainably conduct business by using the business management as the key mechanism.
- Received an “Excellence” or “five stars” award from Corporate Governance Report of Thai Listed Companies 2016 for 8 consecutive years by Thai Institute of Directors (IOD), The Stock Exchange of Thailand (SET), and Securities and Exchange Commission (SEC).
- Received a “5 TIA” award with full 100 points of evaluation from Securities and Exchange Commission (SEC), Thai Listed Companies Association, and Thai Investors Association in conducting the general meeting of shareholders in 2015 for 7 consecutive years (2009 - 2015).

In the name of the Company’s Board of Directors and employees, we would like to convey our utmost gratitude to all shareholders, customers, and business alliance for your trust, confidence, and supports in these past 12 years. With the cooperation from everyone, we hopefully will be able to achieve even more excellent performance and become a crucial part in helping and developing both Thai people and the nation.

◆ Publishing Business in 2015

Overall, printing business in 2015 was affected by economic slowdowns. As the household debt increases, people are more careful with their spending, making the purchasing power in the market decreases continually. In addition, the printing sales and the number of new releases had decreased for the entire year. As a result, the sales in every region also continually decreased, similar to the situation of most retail businesses.

Since the list price of publications can't be fixed or controlled by retail business, the price adjustment will take a long time and the increased price barely covers the cost the publishers bear. It is the significant reason that decreases the profits of the retail books business as a whole.

Nowadays, communication technology has rapidly developed and are getting easily to access, affecting the way of living. Social media today enables easier and faster communication. Still, sharing and sending information online has affected the print magazine and newspaper market directly.

In Thailand, e-book doesn't affect the print book market as much as the print magazine and newspaper market because there are not many e-books in Thai language and the format has not been fully developed yet, making it hard to read. Thus, it will take some times before its popularity would affect the book market.

Nevertheless, the Company has prepared for the change of reading habit by launching an application and online services that can be used on both smartphones and tablets. It includes various types of products, such as book, non-book, audio book and e-book. This is another option for customers so that they can access to the resources other than in book form.

In addition, the Company is further expanding business in education and offering more distribution channels of SE-ED Book Center. The portion of the non-book products has also been increased to meets the decline of readings in print books.

◆ Industry Overview and Competition

The book business is an industry with a continuous growth, there is still the support from the government sector with the policy to campaign the years 2009-2018 the '**decade of reading**'. It is believed that there is still room for the market to expand. As a result there were more business operators entering the book and magazine publishing and bookselling businesses, causing more competitions.

In 2015, however, the book business was affected by economic stagnant. A decrease of consumers' power of purchase yielded in the decline of sales in every part of the country. Therefore the Company decided to close down unprofitable branches, adjust products proportion in stores, and promote e-commerce in order to provide more channels for customers, catching up with changing consumer trends.

Opportunities and Threats Government agenda currently promotes more advanced education for its citizens to prepare them for the global challenge by setting 2009 to 2018 as '**The Decade of Reading**'. This, in turn, triggers an increase in books demand, causing a positive outlook for book business. However, people nowadays have many distractions in everyday life and tend to spend less time reading books.

Even though e-books are popular in foreign markets because of the growth in e-book reader and tablet sale, Thailand's e-book market is comparatively small. There are not many e-books in Thai language available in the market and the current Thai e-books are not as easy to read. It is expected that in Thailand it will take some time before e-books will significant affect the print book sale. However, Thai e-magazines are becoming more popular; there are already substantial e-magazine sales. The Company, has adapted to the changes and prepared adequate facilities to support both e-book and print book sale and become the biggest online bookseller in the country.

Key Success Factors The factors that contribute to the Company's current leading position and the Company's more important role in the future book business can be summarized as follows :

- **Business policy is evidently conducive to national development** Since the beginning the Company has all along adhered to its business in knowledge dissemination, with a view to developing the full potential of Thai people in areas essential to the national development. The Company's continued growth is in line with the national development, and fortunately, not severely affected by the economic slump. Besides, its corporate image is clear, well received, and trusted by every party concerned.
- **Tools and business components for future business operation** Nowadays, the Company's different business divisions support one another efficiently and render more opportunities for success.
 1. The Company has its own largest distribution channel and network store, SE-ED Book Center. The stores spread into major communities all over the country and the Company is always the first to receive offers to select new locations for new branches. As a result, the distribution business had more chances to grow while the bookstore business's cost was lower. Moreover, it allows more possibilities of success for book publishing, as there are direct distribution channels that allowed the customers to receive the products faster and more conveniently.
 2. The Company also has its own media and PR tools, including www.se-ed.com, m.se-ed.com, SE-ED Application '**SE-ED Currents**' for smartphone or tablet, www.thailandindustry.com, www.se-edlearning.com, magazines and TV Programs 'Arn Kho Sen'.

Quantity and Size of Competitors

For the bookstore business, there are more competitors from several large firms interested in doing this business but the market has divided which conform to the products mixed in the stores and to location, as such, this causes not much effect to the Company. While the Company as the market leader with strong financial position and receiving great acceptance by general readers and being ready to expand new branches, the Company can keep a big step ahead by taking advantage of first priority to choose new location and has the lower operating investment. In the future the books business is expected to grow out of a few large firms who are well prepared to face the competition.

Moreover, as the Company's business model covers publishing, distributing and bookstores, the company always benefits from the new comers in the book business, as the result the effect of competitors is slightly.

Market Share Although the Company is the market leader in 3 important businesses : the leading retailer in bookstores chain and book distributor (or wholesaler), and books publishers, numerous entrepreneurs show interest in joining and this causes the spread of business concentration. The proportion of the market shares for market leaders in this industry are not significantly different.

As book business has limitation in terms of completeness of database which makes the market share estimation in each segment contains some errors.

For retail bookstore business, the Company believes the network of SE-ED Book Center is the one of the major players who posses quite a large proportion of the market share.

For the business of distributing book to booksellers, the Company becomes the largest distributor in the market, but the proportion is still not high, due to the fact that market share in book business is less concentrated.

For publishing business, the Company always ranks between numbers 1 to 3 in the book market, depending upon which publishing, in each year, produces the best selling tittles more or less, but in general the market share is not that significant because it is less concentrated than usual.

Substitution products Advances in the fields of technology, industry, and business required us to always learn new things in order to gain advantages in competition. Though communication technology and computer keep running, books are still the only medium that can be read any time and any place. It is durable and costs less money. However the Company also focuses at reading habits on smartphones and tablet devices. Its application on various platforms has been developed to be one of the choices for consumers to access knowledge regardless of formats.

Bargaining power of buyers and sellers As the books business has a standard trading condition structure with several traders in which nobody can evidently dominate the market and the needs to be interdependent of each other, there are not many problems in bargaining. However, due to the fact that new large retailers in other businesses expand into the books business and may cause bargaining with publishers and distributors according to the general retail business nature but is still not much effect of the over all business as their market share is still not significantly large enough at present.

◆ Business Direction

Throughout the past 41 years, the Company has been a leading initiator in publishing academic books, in 'How-to...' category. This reputation as Thailand's main publisher of technological books and journals enabled other Company's operations to flourish and enjoy greater success.

The Company has set a long-term direction and marketing strategy which can be briefly described as follows :

Vision : SE-ED shall be a leader in providing easy and convenient access to knowledge to Thai people.

Mission : SE-ED seeks to do business in the areas that promote education in the fields necessary to the development of the nation. It operates the business that will make **'Thais Smarter'** by developing a sustainable business with a continuous earning growth at the level above the industry's average, being a role-model company that can create work result deems beneficial and accepted by society at large with happy staffs, and able to deliver and maintain an attractive long-term investment returns at the satisfactory level.

Marketing Strategies : To achieve the stated vision and mission, the Company stresses the readiness in several areas to develop quality service which responds to the needs of target customers. To do so, the Company focuses on the expansion of SE-ED Book Center and the addition of interesting products in the stores. In addition, the Company will make e-Books and other services available in SE-ED App in order to accommodate the lifestyle change of customers. Lastly, the Company aims to expand its educational business in the future. Thus, the Company will concentrate on the following marketing strategies :

1. The Company determines to ensure growth and bookstore business strength by stressing on the of market expansion to build the potential to cover more sizable communities nationwide. SE-ED Book Center and network formats will be implemented and expanded, selecting the high potential areas for long-term growth, rather than solely taken into account of the initial profitability outcome as a main source of consideration, to promote and ease customer access to the stores more conveniently and equally. It also proceeds to strategically and thoroughly responds to the customers' needs wherever they are, to maintain the Company as the leader in the business, and to support the growth of book business as a whole into the future while creates favorable brand perception and acceptance, with the emphasis on the idea of **'Think of books, think of SE-ED Book Center'**.
2. The Company emphasizes on providing products or services that are convenient fast, and punctual. To do this, the Company focuses on creating impressive experiences, under the idea of **'Think of reading books, you will get to read it by no later than tomorrow'**, therefore the Company launches the project called **'Order Today, Get It Tomorrow'**. The Company uses technology in combination with modern management to link production, warehousing, order picking and delivery together. SE-ED has also improved the books and products order system between branches and on website : www.se-ed.com, m.se-ed.com. According to this integration, it allows more efficient logistic management at best. This reduces the need to acquire more space to support large volume of books in the market, making possible for an increase in service capability and wider coverage of store throughout the country that serve and respond more quickly to the customers' need and create customers' satisfaction. To add up, this fulfills the concept of **'a small store serves as a big one'**, the customers come and get whatever they want. At this point makes the Company more competitive and becomes the company's advantage in competitions.

3. The Company seeks to find and develop attractive and interesting products and create marketing mix in the stores in a consistent manner to allow more attractive store outlook and more frequent customer visits to the stores, while able to acquire products that customers look for within a short period of time, creating differentiation as compared to its counterparts. This results in much better profitability at each branch.
4. The Company understands the importance of excellent services and the promotion of Company's image, by concentrating on staff and team's consistent development, and also create professional working attitude to the staffs to really take care of each customer in more detail aspects, leading to the better customer's satisfaction.
5. The Company uses an integrated marketing communication model by developing suitable tools and channels to promote products, and reinventing itself with several models towards relentless promotional activities. That is to say the Company is stressing the importance of marketing activities as a value creation for business. With this, the Company also directs all of its efforts to the target customers, and in addition, directly respond to the customers' need, which allows success for most of the newly-launched products; such as promotion of products and services through advertisement and public relation via storefront LCD display system which will be installed in the branches to stimulate more books buying sentiment.
6. The Company promotes customer's relationship and business alliances that work closely together. The Company is committed to treating customers as promised, under the etiquette of business operation. The Company also seeks to work on the basis of mutual business success, for the Company opens to the exchange of views in doing business to seek ways in resolving conflicts and difficulties that might occur. For the better cooperation, the information learned can be used to improve the product development and management process to meet the unwavering standard and this should benefit all parties involved.
7. The Company builds and uses the marketing database more earnestly, through the database collection system by recording all historical data about the customers' needs. By providing products and services to customers in needs, the Company ensures the success in creating a good impression for customers. It also brings the information to analyze and use the information to improve services in the future.
8. The Company emphasizes on raising sales of the new products, therefore the Company sets up new channels to provide updates on events. And the Company has a specific team to focus on the new channels in order to increase sales and make the customers aware of the concept '**think of books, think of SE-ED Book Center**'. In addition, the activities will be held so as to promote the interesting products in SE-ED Book Center.
9. The Company has developed **SE-ED Application** and '**SE-ED Currents**' for smartphone or tablet, its IT facilities, and other facilities involving logistics and sales services in order to support the growth of e-book and the change in customers' purchasing behavior that corresponds with the progress of technology.

10. The Company's business objective comes from the attempt to solve the country's problem in education and to develop Thai people's potential in English, math and science. Therefore, the growth of the Company will also be the improvement of the country. With such objective, the Company has expanded SE-ED Learning Center business as well as other business units in order to develop a research-based comprehensive business model that offers the most efficient and time-effective solution that will enhance educational achievement of Thai people. In the initial phase, the Company has launched two educational programs for primary students: FAN Math to improve math skills and ACTive English to develop English language proficiency. It is expected that in a few years from now SE-ED Learning Center will grow into a franchise business, making the Company's education business a major contribution in the Company's growth.

Policy and Marketing Pricing Policy : Pricing policy is set to meet the purchasing power of each target group, and the production costs, while maintaining reasonable profits in a long run. However, this will not be applied to magazines sales, which depend on advertising income as the main revenue earning.

Distribution Channels : The Company distributes books and magazines through networks of SE-ED Book Center, and other bookshops in Bangkok and other provinces by managing the distribution channels according to customers, products and services as follows :

1. **Books and Magazines Retail Customers** The customers are general readers and working people. The Company distributes books and magazines through the network of SE-ED Book Center's 506 branches with 410 branches still operating including 4 branches for network bookstores (as of December 31, 2015) and on www.se-ed.com, m.se-ed.com which the centers of books and entertainment for family and working people, located in shopping centers and supercenter in Bangkok and other provinces and also in the higher educational institutes.
2. **Books and Magazines Wholesale Customers** This group of customers is accounted for around 5,800 different stores. The Company is responsible for distributing all books and magazines that the Company has the sole rights to distribute to all the bookshops in Bangkok using its own transportation. For distribution to other provinces, the Company uses private transportation company as found appropriate.
 - However, for the distribution of magazines published by SE-ED, the Company uses several transportation companies in each region to distribute to bookshops.
 - For the circulation and distribution to stores in Bangkok and around its vicinity using its own transportation for distribution, the Company utilizes the 'Standing Order' distribution system, a combination of consignment and non-returnable sales system. For most of booksellers in other provinces the Company uses private transportation company for distribution, a non-returnable sales system has been applied with a limit of returnable quantities.
3. **Advertisers** Major companies in the industrial circle including the computer and electronic circle are both regular and non-regular advertisers in the Company's monthly magazines.

◆ CSR : Corporate Social Responsibility

The Company was established by a group of ten electrical engineers. Each of them had experiences in knowledge promoting activities from their participation in Academic Club as a student at the Faculty of Engineering, Chulalongkorn University. They realized that Thailand needed to develop many more of academic resources but no one had been interested in the academic development. Thus, the Company was established in 1974 under the objective 'to do business in knowledge dissemination, with a view to developing the fullest potential of Thai people in areas essential to the national development.' The Company's name also emphasizes the objective. 'SE-ED' is derived from the words **S**cience, **E**ngineering and **E**Ducation because engineering, science and education are vital fields needed for the development of the country. The Company's vision and mission reflect the strong determination to be a part of Thailand's sustainable development.

Vision : SE-ED shall be a leader in providing easy and convenient access to knowledge to *Thai people*.

Mission : SE-ED seeks to do business in the areas that promote education in the fields necessary to the development of the nation. It operates the business that will make '**Thais Smarter**' by developing a sustainable business with a continuous earning growth at the level above the industry's average, being a role-model company that can create work result deems beneficial and accepted by society at large with happy staffs, and able to deliver and maintain an attractive long-term investment returns at the satisfactory level.

Sustainability Framework :

The Company can sustainably operate a business that grows alongside the society while being able to survive in the long term if the executives and employees share the commitment and inspiration to drive the organization into becoming the 'knowledge provider' who makes Thai people smarter. From the past up to present, the Company has seriously operated the business along with creating new innovations to serve the mission 'to make Thais Smarter'. The Company's business operation can be summarized into the following chart :

The operation chart displays many activities that have been integrated into the Company's business operation as in the following :

- **SE-ED Publisher** : The publishing unit is responsible for publishing books, magazines and other education resources to help Thai people improve their potentials. The unit has been active since 1974.
- **Book Distribution Business** : As a distributor SE-ED has distributed good books from both in-house publications and other publishers' to SE-ED Book Center and other bookstores across the country. The distribution unit began its operation since 1998.
- **SE-ED Book Center** : The Company's bookstore business has been in operation since 1991 with the determination to expand branches across the country, giving convenient access to knowledge and good books for Thai people. Books sold in SE-ED Book Center are of mixed varieties and exclude any books that contain inappropriate contents, encourage violence, violate laws or contradict to the moral value of Thai society.
- **SE-ED Learning Center** : The Company started organizing education camps (Computer and Nature Camps) in 1987 as a sample to interest other operators to begin providing more education camps. Later in 2002, SE-ED revived the project and transformed it to 'SE-ED Kiddy Camp' available in every school break. To support the expansion of this business line, in September 2008 the Company opened 'SE-ED Learning Center' on the 600 square meters space at Chamchuri Square building, the property of Chulalongkorn University. The Center's mission is to provide supplementary courses and activities for young children to improve their potentials and boost their development. Moreover, the Center has provided training courses and workshops in developing professional skills and personal performance for general public. From 2013 onwards, SE-ED Learning Center has branched out into the learning center of mathematics, English language and STEM education in the following programs respectively :
 - The Fan Math program for kindergarten 2 – primary students.
 - ACTIVE English program for kindergarten 2 – high school students.
 - SE-ED iKids program for kindergarten 2 – primary students.

SE-ED Learning Center has increased its franchise branches with the belief that it would help to raise the standards of educational achievement of Thai kids. SE-ED Learning Center headquarter is located at the 4th floor Paradise Shopping Center, Srinakarin Road, Bangkok.

- Plearnpattana School** : This is an alternative school that takes students from pre-kindergarten to Matayom 6. SE-EDUCATION PUBLIC COMPANY LIMITED is one of the founders. The school has been in operation since the 2004 academic year onwards. The school's curriculum is designed to equip students with knowledge skill, working skill and life skill that will support students to develop their full potential and become an eligible adult who possesses a voluntary mind, good moral and awareness of his/her social responsibility.

- **BaesLab** : BaesLab Co., Ltd. was formed with the objective to develop educational materials in digital formats (e.g. e-book, ePub, i-book) and to develop programs and IT facilities to support digital content management so that Thai people can access these contents effectively and use it as a part of the learning experience in the 21st century. Such programs and facilities include e-Library system, SE-ED Current, Follow me (teacher's assistant program to control and manage classroom through tablet) and Interactive Book Making Program.
- **TV Programs to Support Reading Habit** : At the present the Company is the producer of 'Arn Kho Sen', a TV program that raises awareness of the power of reading that can change the way we think and our lives. The program features celebrity guests introducing books that can get them through their life crisis and also includes a reality section that follows the lives of people who have different problems and needs. The program is broadcast on Monday-Friday from 3.55-4.00 p.m. on One HD Digital TV (channel 31 via digital set top box and channel 41 via TRUE box, cable box and cable TV).

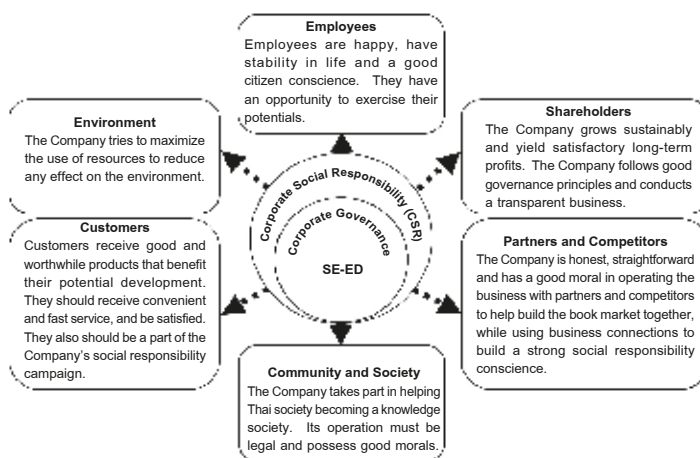

- CSR Project :** The Company takes its corporate social responsibility as a part of the driving strategy and business operation. CSR, or 'CSR in Process' has become the core operation of the organization, in which there is no department directly responsible for CSR activities. However, the Company had been involved in many activities that required cooperation and operation to enhance the effectiveness of CSR activities. Thus the Company decided to set up CSR Department in 2009 to support the Company's CSR activities. This department focuses on helping children and insufficient communities to access to knowledge easier by donating books and educational media to schools in rural areas, donating book shelves to make school libraries well organized and attract students to libraries so they can improve their life-long reading habits.
- Smarter Thais Foundation :** The Company's '**Smarter Thais Foundation**' was officially established on September 23, 2011. The foundation's objective is to initiate activities that support the development of Thai people's potentials that will allow them to be a valuable human asset and possess a better life quality so that they can apply their potentials in developing and driving the country to be competitive in the international community. The foundation will work closely and effectively with the Company's CSR project to help Thai people smarter and build a sustainable society.

In addition, Smarter Thais Foundation was considered to legally be a public charitable organization no. 916, according to the notification of the Finance Ministry on Income Tax and Value Added Tax (no. 648) issued on 5th January 2016.

It can be concluded from the above that the Company's business operation has a role in solving major problems of the country and driving the country to a sustainable development. The Company is also the mechanism that supports the development of Thai people's potential until they can become a valuable human asset for the nation's sustainable development. As a result, the corporate social responsibility along with the faithfulness to business ethics and determination to being a good role model become the important mission that the Company has to strictly hold firm too.

The Company has adopted the principles of Corporate Responsibility and Corporate Governance, which become the Company's strategy. The Company's business operation also needs to take into account the balance satisfaction of stakeholders including customers, employees, business partners, shareholders, communities, society and environment which are appropriately prioritized in the following :

Moreover, the Company has adopted the principle of sufficiency economy into its business operation so that the Company can run its operation reasonably and sufficiently, with immunity. It needs to be assured that the Company has used IT information and knowledge in different areas to make operational decisions with the principles of good morals and ethics as the guideline.

Moreover, when considering the Organization's 'culture' that the Company has tried to impose on every employee, it can be found that the culture of the organization is in line with the sufficiency economy philosophy as shown in the following chart :

The Company realized that it could only maintain the sustainable operation by promoting a positive working culture for every employee. A good culture will produce shared values and positive attitudes in work and life among employees. A good organizational culture will also continuously bring about success factors that answer to the objectives and business nature of the organization. Such culture is a drive force to creating pioneer works that require strong cause, ideology and determination. It is a work that is not only creative but beneficial to the country at large. Every employee is ready to adapt to changes and listen to reasons with open mind. They focus on their productivity to make profits and sustainability for the organization and society. A culture that has been planted into the attitudes of every employee will become a common work ethic shared through team working experiences within the organization. The Company is confident that every employee is ready to apply the philosophy of sufficient economy in their own lives effectively. The organizational culture of SE-EDUCATION PUBLIC COMPANY LIMITED is illustrated in the following :

Operation Philosophy and Driving Force

- We will take on our ideology and turn it into our profession. We will produce creative and pioneer works with happiness because we believe that we can transform our dreams into something great for Thai society.
- We will think big, never think small.

Transparency and Moral Values

- We will be a good role model as a company.
- We will not cheat or violate the law. We will be fair and maintain our work ethics and social responsibility.
- We will have a moral standard in treating our customers, business partners, competitors and colleagues.

Adaptability

- Every rule can be changed with reason and as long as the change will improve our employees and does not cause any negative effect on the Company.
- We are ready to change anything. We will listen, think, learn and improve for better. We will not feel humiliated and be chained to the traditional framework. We will break through any problems or obstacles.
- Nothing is perfect at SE-ED.
- Employees will be given an opportunity to work on what they truly like.

Personal Ethics

- Be economical, humble and self-sufficient.
- Be down to earth and treat everyone with respect.
- Spend money and resources reasonably when it is needed without being stuck to the old tradition. Every money spent is worthwhile and benefits the works. It is known as the Zero-Based Budgeting.

Common Values

- Be positive towards life and obstacle.
- Be understanding and believe in the goodness in people.
- Ignore showing off but care only what matters.
- Creating positive working atmosphere that encourages people to work hard and have fun with the challenging works.
- Live and love as one family.

Emphasis on CSR in the Process

It could be said that the Company's business objective comes from the country's problem in developing the human resources and the Company's social ideology. Such objective will allow the Company, stakeholders and the whole society grow together with sustainability. From the first day of establishment the objective has been carried on and seen through with determination. It has been passed on through the culture of the Company, through the attempt to become a 'good role model' in every aspect, through the works produced and through the growth in different areas.

The Company believes that the corporate social responsibility means that the Company must operate its business with ethics. Success of the Company must go along with the improvement of society. Every stakeholder is focused and treated with balance.

To achieve the above objective, the Company must make the Corporate Social Responsibility (CSR) the work and responsibility of every employee. It is in compliance with the objective of the establishment and usual business operation. CSR must be a part of the business process. CSR must not cost more than an ordinary process. CSR must involve employees. CSR must be in the actual work process. This is the reemphasis on the Company's management philosophy that we will not do anything differently from a normal business operation. We only change the '*way of thinking*' and operate the normal business with '*different methods*'.

Every business of the Company is aimed to answer the original objective of establishment. Books, magazines and educational resources are produced to benefit Thai society that still needs those materials. Distributing books for our publishers give a chance to good books to be widely distributed while publishers can survive, stay stronger and be ready to produce even more good books. The increase of SE-ED Book Center to different communities allow people to have an easy access to books that are selected and displayed in a way that suits the lifestyle in each area. The development of purchasing and ordering books give an opportunity to people from anywhere in the country to learn and develop equally. Moreover, the Company has established SE-ED Learning Center to disseminate knowledge and inspire Thai people to learn and discover. The Center's activities include organizing Kiddy Camps, educational activities, training courses and seminars for general public to improve their working skills in different areas and increase their productivity. Moreover, the Company took an important role in founding and operating '**Plearnpattana School**', which is an alternative school aiming to produce quality human resources for the country in the future. The school focuses on promoting knowledge skill, working skill, life skill, voluntary mind and awareness of the social responsibility.

Responsibility to society, community and environment is not just an additional work but the core of the business operation, the breath of SE-ED family who are creators, initiators and role models. Every employee in the Company is a part of this responsibility in one way or another. The Company could be claimed to have a vital role in breaking through the overall book business and quickly expanding the market for educational resources.

The Company believes that a sustainable organization can be developed from not only the ability to yield reasonable profits and growth rate for shareholder but also from the ability to improve itself to become a good role model that create works beneficial and acknowledgeable to the society at large. The Company's employees stay happy. Environmental awareness is a part of the business operation. The Company, thus, has operated the business on the interrelation of sustainable development with society and environment, with the founding belief that '**Good Will shall lead to growth, leading to profits, to strength and eventually to sustainability**'.

Idea of Corporate Governance of

SE-EDUCATION PUBLIC COMPANY LIMITED

The Company supports an effective, transparent and auditable system and emphasizes on business ethics, transparency, being exemplary, responsible and honest, equality, and rights of employees, directors and shareholders. This has become the 'strong culture of the organization'. Starting from the Chairman, Directors, Managers and Managing Directors, everyone is the driving force to implement the Company's policy with transparency and responsibility to society. Every member in the organization, from employees, directors, and executives, is well aware of the core policy of the Company.

Every business plan for every process including operation procedures in the organization are under the balance responsibility of every stakeholder; shareholders, business partners, competitors, creditors, customers, employees, communities and society. Every employee must follow the ethical guideline that the Company has compiled and used as the guideline to plan any operation, process and procedure.

Moreover, the Company's directors realize the importance of an effective, transparent and auditable managing system. Every employee and new employee will be infomed the Business Ethic Guideline, involving rules and regulations in operating business. The guideline helps build more confidence among shareholders, investors and all stakeholders who are the supporting and driving force towards the Company's strength, competitiveness and long-term success. The Company has undergone key activities to support good corporate governance principle :

- **Directors' Manual** The Company believes in good corporate governance, business ethics and responsibility to society. Every director and executive must perform their duties honestly and straightforwardly. The Directors' Manual and Corporate Governance Policy are the guidelines for directors and executives to comply by the laws and the Company's regulations, to possess business ethics in performing any activities, decision-making and any transaction of the Company. The Company intends to run the business with honesty.
- **Business Ethics Guideline** Every employee and new employee will be informed of the Business Ethic Guideline, involving rules and regulations in operating business. The guideline helps build more confidence among shareholders, investors and all stakeholders who are the supporting and driving force towards the Company's strength, competitiveness and long-term success.
- **Declaration to be a part of the Collective Action Coalition against-Corruption (CAC)** In the beginning of 2011, the Company has declared its intention to be a part of the Collective Action Coalition. This is the collaboration of 7 leading organizations including Thai Institutes of Directors, Thai Chamber of Commerce, Thai Bankers Association, International Chamber of Commerce, Thai Listed Companies Association, Federation of Thai Capital Market Organizations, and the Federation of Thai Industries.

Procedures of Corporate Social Responsibility of SE-EDUCATION PUBLIC COMPANY LIMITED

The Company has 3 main procedures to fulfill the corporate social responsibility :

1. General CSR activities of the Company must include all stakeholders who are customers, employees, business partners (and competitors), shareholders, communities, society, and environment. Every parties must be prioritized with balance so that everyone can be fully satisfied and accomplish together.
2. The Company focuses on CSR in Process. That means any CSR activities are a part of the responsibility of every employee in order to avoid creating a burden on top of the usual routines. 'Social responsibility' then becomes the habit of every employee.
3. The Company determines to take on the problem of the country in education and potential development of Thai people. The Company tries to find a solution to the key problems including proficiency in English, Math, Science, and implanting in Thai children desirable qualities needed for the development of the country and sustainable society.

Evolving to 'Smarter Thais Foundation'

Past and present CSR activities gave the Company an opportunity to use knowledge, potential, resources and connections to help develop the country with sustainability, and competitiveness in the international community.

In order to facilitate the operation of those activities to involve corporation from people and other organizations and enlarge the scale of the activities to the national level, the Company decided to set up 'Smarter Thais Foundation' in early 2011. The objective of the foundation is to *'increase the role of social responsibility to produce tangible effects in a large scale'*. This is the core strategy of the Company that needs to be invested with all available resources to see it through.

Smarter Thais Foundation will support the development of Thai people's potential in English, Math, and Science and build desirable qualities in Thai children through minor projects, mostly pilot projects, or projects that give opportunities to children in need. Any project must be able to operate in the long term with financial support from 'Changes for Kids' donation from SE-ED Book Center's customers and every Thai people. The donation will be used in Thai people's potential and value development projects.

In 2011 Smarter Thais Foundation began to promote the idea of 'replanting human values' that will give an opportunity to desperate people in society to be trained professionally and able to general products and incomes to support themselves and their families. It is a sustainable project of which the role can increase continuously.

Corporate Social Responsibility in Customer's Perspective

- **SE-ED Book Center Project** : SE-ED is determined to operate SE-ED Book Center nationwide as the provider to Thai society to fulfill the satisfaction of the customers so they can shop at the nearest store at their most convenience and to create equally opportunity for Thai people to seek for source of knowledge.

- **Logistics Development to Meet Substantial Orders :** The logistics system of the company is developed and improved so all the order is promptly delivered to the customer within the very next day under the slogan 'Order Today, Get It Tomorrow'. - **Change for Kids Project** : This project enables SE-ED customers and others to participate in the donation activity through donation box at all SE-ED Book Center branches or by the donation bank account. This project will be operated under 'Smarter Thais Foundation (Khon Thai Keng Kheun Foundation)'. Every penny of the donation is determined to organize activities that aim to develop proficiency, ability and life value of Thai people. We believe that this sustainable project will result in making Thai realizing their potential for this country.

- **Total Solution to English Proficiency project** : This program aims to lift up and develop English proficiency of Thai teachers and students to the international standard by training teachers and developing their teaching plan to align with CEFR (The Common European Framework of Reference for Languages). On the other word, this project provides how to effectively and systematically develop lesson plan. The teachers will be able to properly adapt their knowledge from this project to the Basic Education Core Curriculum B.E. 2551. To pass this project, the teachers are required to have the teaching evaluation. This would ensure how the teachers will help the learners to have Learning Achievement & Competency according to the given criteria. This project covers not only learning English language, but also learning science, mathematics, social studies, and music and art studies through English. The Primary and Secondary teachers from any units or organizations will be trained in a total-solution system for effectively teaching in classroom or flipped classroom under limited resources. By this method, Thai teachers could improve their Communicative Language Teaching and help their students improve 4-skill English or Communicative English, Academic English, English for mathematics and science for upcoming ASEAN Economic Community.

- **Genius Book Series Project** : SE-ED cooperates with the Institute for the Promotion of Teaching Science and Technology (IPST) in producing course books and development helper books that available in Mathematics, Science, Computer, Biology, Physics, and Chemistry. This includes tutoring books for an Academic Olympics.

- **Cooperating with National Science Museum (NSM) to build the science learning centers for children in towns :** SE-ED has a policy to encourage youth to have inspiration in Science and technology. Therefore the Company contributes support in finding the space in Shopping Malls, which are trading partners of SE-ED, to National Science Museum (NSM) for setting up the Science museums and learning centers. Moreover, the Company provides a special renting rate or renting-free for National Science Museum. Nowadays, there is one science museum and learning center : Chamchuri Square.

Corporate Social Responsibility in Environment's Perspective

- **The natural conservation project :** SE-ED emphasizes on saving energy and resources. Thus the Company launches many campaigns and activities on saving energy and resources as follows :
 - Replacing electronics in SE-ED Book Center with saving energy models.
 - Changing the light switches into individual string switches in the headquarters in order to save electrical energy on unoccupied workspaces.
 - Minimizing of paper usage project promoting employees to manage the important documents through electronic media (e-Document) to reduce papers usage and enable faster searching.
 - Saving water in the headquarters project by installing automatic piping valves in restrooms, working with the Contact Switch at toilets' doors. Valves will be turned on, if the door was closed only. This prevents wasting water.
 - Power saving in the new distribution and warehouse was implemented by using the T5 High Output bulbs instead of Metal halide lamps for higher space that needs more light. This implement helps reduce more than 50% of electricity usage. For normal space, the T5 fluorescent bulbs were installed, which can save electricity up to 33% when compared to normal fluorescent bulbs. In addition, the automatic light on and off system was installed in the new warehouse, which was working separately and independently, helping to use energy effectively.

Innovation of CSR

SE-ED always determined to one that make 'Smarter Thais' and satisfy all stake holders. Therefore the purpose of research, development and innovation creating conform to fulfill this determination. The Company's innovation must afford to provide benefits to book industry as a whole, to enable the easier ways to for Thais to access knowledge. The latest technology is applied to SE-ED's business operation in order to develop the operation's efficiency. There are many innovations, which reflect to social responsibility as follows :

Examples of innovations which contribute to the developing of Thai book business can be seen as follows :

- **'Standing Order', Developing Distribution System project** : Being the biggest book distributor of the country, the Company sees the problems in a stock management in book industry as a whole such as inaccurate sales monitoring, complications on billing, lack of credibility and etc. Thus the Company developed the innovative distribution system called 'Standing Order'. It is the system that allows the new books be on stores without billing. This enables the stores to sell more new books. If some of the new books were best seller, the stores would fill up the stock and pay bills on the filling stock. The SE-ED employees will be fully responsible for sales checking. This, Standing Order System, gives enormous advantages to book industry. Firstly, the stores are willingly to add more new books. Secondly, Thais have better opportunities to access a variety of books. Thirdly, it reduces risks in business operating, thus the distributors and publishers can track all information about sales performance. This enables the better planning. Fourthly, it also enables the better billing system. Nowadays, this Standing Order System is accepted and adopted across the country.

- **Developing Product Management project** : SE-ED has developed the Distribution Model Program and Intelligent Automatic Reordering System (IARS) in order to manage a new books distribution and to fill up stock of SE-ED Book Centers which depends on its community's needs and its actual sales performance. This reduces risks in business operating because the mass publishing, without information technology supporting, is not necessary. Moreover, the stable and accurate information technology allows all branches to fulfill its community's needs. This also efficiently reduces costs and opportunities loss.
- **Developing websites supporting retail and wholesale systems** : The Company has developed and improved its websites: www.se-ed.com and www.se-ed.com/wholesale in order to support retail system (e-commerce) and wholesale system.

Nowadays, www.se-ed.com is most visited website of the country. There are wide range of products and a variety of books for customers. Moreover, they provide the updated information about best sellers, interesting books and where to buy them. With these information, it enables customers have choices and can make a decision easier.

Additionally, the Company has launched its mobile website, m.se-ed.com, for mobile devices such as smartphones or tablets to allow customers more convenient alternatives to book shopping. The Company expects that such channel will support the increasing e-book trade in the future which is the result of the dramatically growing internet usage from general public.

- **Integral developing logistics system** : The Company has determined to develop logistics system to be highly efficient, to deliver goods to customers at low cost, and to be competitive. According to this philosophy, Thais could access the quality books quicker, and whenever they need.

Integral developing logistics system includes :

- 'Order Today, Get It Tomorrow' Project : The Company has developed and improved order picking system and www.se-ed.com under the concept of 'a small store serves as a big one'. If the customers cannot find the books they need in SE-ED Book Center, they can go over the cashier counter and request for the books. With the developed, improved IT and logistics systems, the stores can deliver the books to the customers within 24 hours at their convenient branches without a delivery fee.
- Intelligent Point of Sale System (iPOS) : The Company has developed this system to support sales performance at SE-ED Book Centers and to provide useful information on books. This helps the customers make a decision easier.

- Developing a data linking system between branches, the headquarters and the warehouse into a real time computer network. This enables an efficient, fast, accurate operation.
- Digital Assorting System : The Company has developed products distribution into a digital system. This enables a flexible distribution to efficiently deal with the market situation. In addition, this system helps reduce papers usage up to 500,000 sheets.

Examples of innovations which contribute to developing Thai's potential can be seen as follows:

- **Successfully develop the potential of Thai youth :** The Company did a research to find a guideline to help young Thai people who do not live in an English speaking environment to be able to improve their English skill significantly. In addition this practice must no increase a burden for teachers and use minimum resources. The outcome of the research shows that by reading graded readers with the extensive reading approach, the English skills of student improved significantly as well as their attitude towards English language, the inspiration to study more by themselves and the reading habit which has a crucial role in changing the student into becoming a life-time self learners.

Consequently, the Company initiated SE-ED Enjoy Reading program in 2008. This program aimed to develop graded readers materials with the corporation from the world's leading publishers who specialize in extensive reading approach and graded readers. The program has selected many books in different levels and themes that will match the different interests of most students in the school system. Graded readers will be a tool to increase English proficiency of Thai students. From the research there will be a development of practice that can be employed in the schools across the country.

In 2009 - 2010, the Company began its research with 20 lacking schools in the elementary and secondary level. The outcome indicated a satisfactory improvement among students who read SE-ED Enjoy Reading materials with Extensive Reading Approach and toolkits from the program.

In order to magnify the outcome, the program has expanded its reach to teachers whose role can impose positive changes on children. In 2010 the program organized a training for the management staff and English teachers for over 70 school from the northern, central, southern and northeastern regions in order to prepare for an in-depth research. Every school participating would be provided SE-ED Enjoy Reading books, teachers training, teaching kits, and evaluation of English proficiency throughout one academic year.

In 2011, the Company, with the PR support from agencies of the Ministry of Education including the Office of the Basic Education Commission (OBEC) and the Office of the Private Education Commission (OPEC), organized a teacher training for over 1,000 teachers across the country. The

training was under the idea of Total Solution to English Proficiency that focuses on improving the whole system with proficiency-based teaching methods. The proficiency-based methods will allow students to improve listening, speaking, reading and writing skills that can be applied in everyday communication English as well as academic English. The improvement will take place in all aspects including the curriculum development, classroom evaluation, materials selection, teacher training, cultivation of reading habits among children, and extracurricular activities.

In 2012 the Company hosted the academic seminar for teachers to exchange ideas and teaching techniques in classroom. There were over 1,200 teachers participating. The project aims to develop teaching efficiency of teachers and English language proficiency of students through a systematic teaching model that teachers can apply in classroom. In addition, there are teachers trainings to improve teaching efficiency to the standard of 'Oxford Language Program'. Development of teachers will be evaluated by students' achievement at the determined level.

And in 2013 the Company worked with the Education Area Office nationwide to provide trainings for teachers. So far there has been over 1,000 teachers attending the trainings and over 140 schools that participate in the Total Solution for English Proficiency program.

In 2014, Smarter Thais Foundation has started the project 'Improving Knowledge Management for Increasing Educational Achievement'. The purposes of this project are to comprehensively improve teaching English language, where teachers are able to effectively adjust their knowledge management plans according to their situations, and to increase teachers' abilities in teaching to effectively raise students' standards of educational achievement according to the criteria. This project is also a collection of helping tools for knowledge management planning and the developing system for teaching quality. This would help reduce Teachers' burden in teaching preparation. The total number of students in this project is 25,977 students from 120 schools.

Changes in capital structure

SE-EDUCATION Public Company Limited (SE-ED) was established on October 10, 1974 with a registered capital of THB 99,000. Their objective was to do business in knowledge dissemination, with a view to develop the fullest potential of Thai people in areas essential to the national development.

In 2001, at the Annual General Shareholders Meeting 1/2001, dated April 30, 2001, the shareholders approved of additional shares registered by the amount of THB 137,141,560 by divided into the following :

- Warrants offered to shareholders are numbered at 10,549,356 shares, where the proportion of right to exercise per 1 unit can be used to buy common stock of 1 share at the price of THB 16.50 per share, with validity lasting for 5 years, from the date of issuing the paper, allowable for exercise every 3 months and the right to exercise is expired on December 15, 2006.
- Warrants offered to company's directors, staffs, sub-agents are 3,164,800 shares, where the proportion right exercise per 1 unit can be used to buy common stock of 1 share at the price of THB 10 per share, with validity lasting for 5 years from the issuing date listed on the paper, allowable for exercised with the duration of 1 year per warrant and each warrant for every 3 months, with each warrant allowed to buy common stock at the rate of 10, 10, 10, 30 and 40 of the total warrants respectively, and the last date to exercise is on January 14, 2008.

As of 2003, at the Annual General Shareholders Meeting 1/2003, dated April 23, 2003, shareholders have agreed to approve the change of share value (share dilution) from previously THB 10 to THB 1, which the Company has proceeded to register with the Commerce Ministry on May 22, 2003.

In addition, in 2004, at the Board of Directors' meeting as of 1/2004, dated February 4, 2004, the board resolved to allow the Company to re-purchase the shares, for the purpose of monetary management. As the Company had over-excess liquidity of 19,783,600 shares (total worth of THB 122.64 Million, re-purchase value of THB 6.20 per share) which according to the Ministerial rule with regards to 'outline and method of share re-purchase, selling of re-purchase shares and cut-off for the Company's re-purchase shares', stipulated that the Company must sell the re-purchased shares within 3 years after date ending of share re-purchase activity, which was due on September 11, 2007. The Company could not finish the re-purchasing of shares as committed by the Board of Directors resolution. Therefore, to follow the guideline of Ministerial rule, the Board of Directors' meeting as of 4/2007 dated on September 19, 2007, approved the capital reduction by way of reducing the share repurchase by 19,783,600 shares, resulting in the remaining capital of 328,345,090 shares. The Company registered the reduction of registered capital on October 24, 2007.

In 2011, during the 1/2011 general shareholders meeting on April 28, 2011, it was approved that the Company's authorized capital was reduced in order to comply with the paid-in capital. As a result, the Company's authorized capital remains 323,921,130 shares. The Company registered the reduction of registered capital on May 11, 2011.

In 2012, at General Shareholders Meeting No.1/2012 on April 26, 2012, it was resolved to approve the stock dividends to be issued at the rate of 10 existing shares per 1 dividend share in order to increase the company's stock liquidity and maintain the liquidity of the working capital to support future investments and expansions. It was approved to increase the Company's share capitals to support the aforementioned stock dividends. Therefore, the Company's share capital has increased to 356,313,243 shares. The Company registered change of the capital increase on May 8, 2012.

In the General Shareholders Meeting No. 1/2013 convened on April 25, 2013, there was a resolution to decrease the Company's authorized capital to correspond with the paid-up capital; and another resolution to increase the company's authorized capital to support the stock dividend payment in the ration 10 original shares per 1 dividend stock. As a result, the company's authorized capital increased to 391,944,529 shares. The company registered the increase capital on May 22, 2013.

Important Changes and Developments

At the beginning, the Company published the monthly magazine 'Semiconductor Electronics' and was the distributor of electronic devices from abroad.

In 1978, the Company published the monthly magazine 'Taksa, Science and Technology Edition' for the general and young readers whose interests are in the areas of science and technology.

In 1979, the Company launched the monthly magazine 'Miti Tee See' that aimed at the creativity and imagination and, particularly, for those who don't like the heavy science, hoping to gain readers attention in science.

In 1980, the Company started to publish the engineering and scientific textbooks which were later became the textbook and academic books division.

In 1983, the Company published the monthly magazine 'Microcomputer' and began to publish the books about microcomputer. At the same time, the Company set up the management books division for the purpose of publishing the books that can help people work more efficiently rather than publishing books that can only be sold in a short period of time.

In 1985, the Company adapted and introduced the Standing Order Distribution System and merged the magazine 'Taksa, Science and Technology Edition' with 'Miti Tee See' which resulted in the new magazine called 'Rou - Rorb -Tua' magazine which was later transformed and changed its name into what is today called 'UpDATE' magazine. In the meantime, the Company's Children Book division was born in 1986 and 'Wittayasat Arn Sanook' - the first finest set of cartoon books aiming at teaching young learners - was published and warmly welcomed by general public.

The Company continued to take its lead in publication of magazines and educational books, becoming the forefront in knowledge publishing firm in the country with the best distribution system in the book business. The Company also became the book distributor for other publishers producing books in the same fields.

Although, compared to the average publishing industry, SE-ED had satisfied the expectation of both sales volume and sales growth, as at that time the Company is the publishing firm with highest sales volume through bookstores channels and the largest books distributor, the Company found that there were still limitations due to the fact that there were a few good quality bookstores existed in the market. Consequently, the Company's books could not be effectively circulated. This resulted in the inability to increase sales volume of each book sold at the desirable level.

Following an extensive research into the retail industry, the Company realized that the pre-existing bookstores could not be expanded or improved much further. At that time, many new shopping centers had been opened, and the Company believed that they would be good venues for the bookshop business. As the Company had confidence in those malls that they are attractive and able to bring in large communities and would likely change the buying behavior of Thais. Therefore, the strategy of providing more convenient purchasing channel for Thais which was to allow access to reading materials was to set up well - thought - out bookstores in those malls. But as the investment cost was high and no one had seriously ventured in this area of business before, the Company decided to start the bookstore business in leading shopping centers to avoid affecting the previously existing bookstores which were mostly located in commercial buildings.

In the third quarter of 1990 the Company was permitted to be listed on the Stock Exchange of Thailand and started the 'SE-ED Book Center' project that allows Thai people to get access to books and to support the future growth of overall book market by focusing on opening branches in various leading shopping centers. SE-ED Book Centers will sell both books from its publications and also from the others. The first branch of bookcenter for family and working people opened in late 1991 at Fortune Town Shopping Center.

In the third quarter of 1996, SE-ED opened SE-ED Book Center in supercenters. The first branch was at Lotus Supercenter, Pattaya with strong belief that supercenters would be the new trend going forward and also suitable locations for the long - term business. The Company further improved its image to be more modern, by using bright and vivid colors. Newly designed bookshelves were installed so that it could be manufactured more easily and more cost effective. Consequently, SE-ED could put new bookstore branches in operation faster and more convenient. It also focused on developing the book distribution center to accommodate more books for more than 600 branches. In 2006, the Company expanded the distribution center area from 7,400 square meters up to about 10,000 square meters, at the end of 2008, the Company expanded the warehouse space by 3,000 square meters which made the total warehousing area to be as large as 13,000 square meters, or 30% increase. In 2010 the Company expanded the space of the warehouse from 13,000 square meters to approximately 15,000 square meters. The Company also developed and tested the business model that is suitable for the Company's competitiveness and business sustainability. At the same time the Company can open a new branch fast with lower operation costs and expenses, allowing the Company to have more chance to be successful.

Furthermore, SE-ED Book Center has developed a relationship with several shopping centers and super-centers, being recognized as an important business alliance. This has enabled SE-ED to develop its business format continuously. Nowadays SE-ED Book Center is a chain bookstore evolving and expanding very fast, becoming the full functional chain bookstore with highest sales volumes and also serving as the very heart of company's business growth since 1997.

SE-ED's business performance has remained at the satisfactory level. In 1997, when Thailand encountered serious economic crisis leading to business collapse and widespread unemployment resulting in lower purchasing power, the publishing business was affected in many ways. Several of SE-ED's major book suppliers encountered the severe loss and liquidity problems, to the point that SE-ED had to allocate asset as bad debt account, largely due to the lower purchasing power and decrease of sales orders from bookstores. SE-ED was seriously aware of granting credit to customers to keep control of the possible bad debt. The competition also became tougher than before. As a result, the sales figures that came from both SE-ED's own published books and other non-SE-ED published books was not as it was hoped to be. It was considered the first time that SE-ED faced accounting losses in 1998, since listed in the Stock Exchange of Thailand.

However, after the severe economic crisis, the Company began to review its business structure's long - term strength. The Company started to diversify risk at a suitable level and, at the same time, tried to improve financial structure, increasing more capital for unforeseeable economic problems in 1998 and set the reliable financial standard for paying up the long-term loan from financial institutes and for incoming expansion. As a result, The Company can recoup from the almost fatal slump and finally came back to profitability with adequate liquidity and continuous expansion in 1999.

Moreover, in 2008, the Company opened SE-ED Learning Center with the space of 600 square meters, located at Chamchuri Square building - a part of Chulalongkorn University, to facilitate the expansion of youth activities in different forms in the future. This includes the training for professional activities to increase the potential of Thai people in different fields for the general public. In addition, the Company's new business strategies included the development of two supplementary curricular aiming to increase children's potential and intelligence in mathematics and English. The curricular are as follows :

- FAN Math is a supplementary mathematics program for kindergarten 3 to primary 6 levels. Teaching and learning materials are presented in animation format.
- ACTive English is a supplementary English program for kindergarten 2 to primary 6 levels. Teaching and learning materials are mainly interactive multimedia and consistent with the Common European Framework of Reference for Languages (CEFR).

In 2013 the Company expanded SE-ED Book Center by considering the location as the main factor. The Company also focuses on the product mix in the store to increase profitability. The employee ratio is adjusted to increase service efficiency as well. However, the Company has developed the information technology system, communication system for all bookstores branches and headquarters and distribution center in order to support more services which deem to soar in the future, so as to increasing efficiency and reducing the chance to waste any sale potential.

In 2014, the Company has officially opened the Book Distribution Center and warehouse, which can service up to 600 bookstore branches. The Book Distribution Center is not only designed to be more spacious for storing, but also has functionality and utility, it will enhance the performance to service and do the distribution for 480 point of sales at the same time. In addition, the work model is developed to be more accurate, functional, and faster by improving the distribution process to be the Digital Assorting System. This system supports the circular of the products in the bookstore and stimulates to have more various kinds of products for our customers.

Investment in Subsidiaries and associates

In 1984, the Company also invested in 25% of the shares in M&E Co., Ltd. with a paid-up share capital of THB 400,000. The M&E Co., Ltd. prints and publishes technical magazines, EC magazines and engineering manuals, distributed by SE-ED.

7. BaesLab Co., Ltd. BaesLab is a consulting, software and hardware designing and developing business.

Procurements of Products and Services

Products from other publishers : in general, consists of 2 parts.

- **Books for distribution :** At present the books that are distributed to all bookstores through out the country come from the Company's own publishing house and other around 462 publishers who decide to grant the Company as their distributors to distribute their book nationwide. The Company will consider only the products which are in accordance with the Company's marketing direction and have an opportunity to sell.
- **Books and other goods SE-ED Book Center sells directly :** SE-ED Book Center receives goods from 2 main channels: the Company's distribution business unit and the other channel and mostly deals directly with suppliers by the marketing department of SE-ED Book Center in charge of consideration and selection of products for sales in the Company bookstores.

Relation with suppliers and the effect of losing them :

For value of products bought for reselling from each distributor will not be more than 30% of total selling cost, whereby the proportion of product value purchased from the 10 first largest trading partners against the cost of goods sold for the past 3 years is illustrated as follows :

(Unit : Million Baht)

Item	Year 2015		Year 2014		Year 2013	
	Value	%	Value	%	Value	%
Value of reselling products from the first 10 largest trading partners	1,082.43	39.89	1,356.37	44.93	1,173.91	34.74
Total cost of goods sold	2,713.43	100	3,018.63	100	3,379.52	100

In 2015, there is no specific revenue from sales considered to have severe effect on the Company. In addition, the Company is not involved, in any way, with the particular seller and has no obligation to place any order in the future.

Books published by SE-ED : Books and magazines published by the Company are the responsibility of the book publishing and magazine departments to prescribe the direction and selection of original manuscripts to publish including the production process of printing into complete copy before handover to the Company distribution group for distribution.

Production utilization ratio : As the Company does not own a printing press, the production of books and magazines are in the responsibility of in-house work groups to take care of the production throughout the complete cycle and spread the printing jobs to several printers matched with the schedule. Therefore the real production can be increased or decreased without any unnecessary delay.

Raw materials and suppliers : Paper is the main raw material which the Company purchases from local distributors in lump sums. The types of paper used in the production of books and magazines mostly are wood-free, newsprint, coated and cover coated.

Relation with raw material suppliers and the effect of losing them : For the purchasing value of paper, the Company has no particular relation with these suppliers and has no binding obligation to buy from them in the future. In the case that these suppliers can not provide the Company with paper, the Company can still procure them from other suppliers. The total value the Company expenses for raw materials and finished goods to suppliers was 26.64% of the cost of products in 2015 or 1.33% of cost of goods sold, which can be considered that no specific supplier can cause severe effect to the Company.

Process and production technology : Production process for a new book starts from editorial teams calling for meetings to plan and consider the selection of manuscripts. This manuscript may come from the self-proposed original writer, or from the Company-assigned writer or translator in accordance with the Company's determined guidelines. Then, the editorial team will consider the content, correctness, and readability of the books which also include the activity involved, re-evaluating and opinionating the books in terms of marketability by Company's respectable book advisors who possess knowledge and interest in particular subject areas. After the team agrees on the book, the content may be re-adjusted and formatted at a suitable level for the market, and the use of copyright contract may be signed with a writer, a translator, or a foreign publisher.

In the mean time, the artwork team will start to design the book cover and when the finished manuscript is ready for print, the computer artwork will later take on its duty. After finishing the artwork, the step of proof-reading activity will be taken and corrected until the content and art design are completed. In the case of books, there will be additional step that are the naming of the book and pricing, which also involves the related marketing work that is suitable for the target audiences.

The process of producing magazines is quite similar to the process of book publishing, that is, the editorial team takes responsibility right from the market direction till the end of the production process.

For book and magazine manuscript works, the Company uses Macintosh computers and PC along with all other related tools and equipments, whereby all this computer technology shows sign of having higher efficiency but becoming less expensive. In addition, the editorial staff in the team are very experienced and possess expertise in writing. They come from people in the editorial team and also general writers.

After the manuscript is done, the Company will pay for the printer to print, while paper is supplied directly by the Company. The paper Company then delivers paper straight to the printing press at the determined time so that each manuscript is printed into book and magazine.

Capability, necessity, and expenses in modifying machines to be able to compete : As the Company does not own a printing press, there is no need for the Company to invest in the machinery and equipment in printing. It becomes unnecessary for the Company to develop machinery and equipment. And due to the competitive environment of the printing press business, it equips the Company with bargaining power and, with this, the Company is always allowed to have choices of printing press companies to choose from.

Environmental Impact : The core production team for the Company is actually the editorial team. Therefore, production process is only concerned the production of manuscript and coordination within offices of the Company. Such activity will not result in pollution that can affect the environment and the Company's business is not under the direct control of any government agency.

◆ Risk Factors

Directors and executives of SE-EDUCATION Public Co., Ltd. are well aware of their responsibility in operating the business with good governance. In order to maximize the benefits for the Company's shareholders, they also have to manage risks in the business systematically and continuously so that risk factors such as operation risk, business risk, financial risk, production risk, will remain at an acceptable level.

Directors and executives of the Company appointed Audit Committee to supervise on the risk management and make sure that the management follows the policy and reports directly to the Company's directors so that the Company's risk management is properly controlled. However, there could be some risk factors affecting the Company and stakeholders as follows:

Operation Risk

- **Risk from problems in key operation ground :**

- **Distribution Center and Warehouse** Most products sold in SE-ED Book Centers and distributed to other bookstores are delivered from the Company's warehouse. The warehouse is, therefore, a very important factor in business operation. In 2012, the Company started the construction of a new distribution center and warehouse and open in 2014, which will help to reduce the risk from warehouse rental.
- **Plearnpattana School Buildings** is a vital factor in the operation of the subsidiary company.

In case of natural disasters, accidents or other uncontrollable events on the Company's Distribution Center and Warehouse or Plearnpattana school buildings, the business operation of the Company and its subsidiary may be unavoidably affected.

However, the Company has sought to insure all the assets and products and consistently adjust the insurance coverage to be in line with the asset value. The Company also sets up a security measure to reduce unexpected risks from disasters which might occur at the warehouse and Plearnpattana school buildings.

In addition, in case there is an error in the warehouse's system, the Company is in the process of developing a back-up system that will allow the warehouse to operate temporarily and still be able to deliver products from publishers and suppliers to the branches across the country.

- **Risk from Fire, Flood and Other Natural Disasters** Being in the publishing business, the Company's assets and products can be easily damaged and broken from various causes, which can potentially harm the business operation of the Company. Even though the Company and its subsidiary have adequate insurance coverage, the Company has always improved the precautionary measures against such dangers.

Fire risk, the automatic fire alarm and sprinkler system were installed on the ceiling of the distribution center and new warehouse. Some was installed between product shelves in order to reduce fire risk and control the fire not to expand. In addition, employees were trained to use firefighting equipment. The fire prevention manual with instructions and other detail was provided in order to enable the prompt operation.

Electricity risk, electronic equipment in the new warehouse was checked and maintained regularly to be ready to use. The lightning protection system was also installed in order to prevent the accidents from short circuit. Moreover, in case of power failure, the energy backup system was installed to reduce the risk of stopping operation.

Flood risk, the new distribution center was designed to be higher than the road level by 2.35 meters to reduce the loss from flood.

- **Risk from product loss :** As the Company operates a retail bookstore business with over four hundred branches nationwide, it has been dealing with the loss of products from theft and other causes in the similar manner to what other retail businesses have encountered.

The Company realizes the importance of establishing a proper product loss and prevention effort. The Closed-Circuit Tele-Visions (CCTV) have gradually been installed since the end of fourth quarter in 2006, and later completed the installation in all branches in the middle of 2007. The Company also established a Loss Prevention Department (LPD) to address the issue and set up measures to prevent the book loss specifically. This results in the significant reduction of product loss at the storefronts from 1.59% in 2006 to 0.33% and 0.31% from the sales volume of 2014 and 2015 respectively. Moreover, along with the use of CCTV, the Company has installed the electronic article surveillance system in the branches prone to thefts.

- **Risk from errors or malfunctions in computer and information technology system :** The Company and its subsidiary installed the computer and information technology system for all operation points such as the storefront selling system, distribution management system, purchasing system, and accounting and financial system. The computer and information technology system is regarded as crucial to supporting effective company operation. Therefore, errors and malfunctions of the system may have an effect over the Company's management.

Therefore, to reduce the impact of such computer and technology system errors and malfunctions at the branches, warehouse, head office and subsidiary company, the Company and its subsidiary has set up a protection and back-up system at the generally accepted standard. The Company also sets up a preparation and back-up plan for any circumstances. This includes the regular trainings in case of an unexpected event.

In addition, the Company and its subsidiary have developed a complete system with 'high availability' to support an ever increasing sales transaction, provide a virus protection system and handle a greater number of visitors to the Company's website. However, the fast-changing technology pushed the Company to continuously develop its entire networking system in order to maintain its stability and ability to support the new business expansion. In 2012, the Company changed its network system from MPLS (128/128kbps) (Multiprotocol Label Switching) to ADSL(1024/512kbps) (Asymmetric Digital Subscriber Line) to increase the networking system efficiency.

- **Risk in shortage of specialists :** Experts in the fields and specialized personnel are the most important resource of the Company's operations including the production of academic books and magazines. It is vital to search for specialist teachers who can provide knowledge for students effectively and experts who can create useful works for the Company and its subsidiary's businesses which are mostly pioneer businesses.

The Company and its subsidiary have to endure the economic crisis as well as the problem of high fuel price and inflation that results in higher cost of living problem which the Company's staff has to deal with, particularly foods and travel expenses.

From the above-mentioned problems, the management of the Company and its subsidiary realized that they had to provide support for the staff that is the most important resource. The management then organized a meeting to find a solution to alleviate the effect from continuously rising inflation for the staff so that they can continue their works for the Company and its subsidiary. The Company and its subsidiary then reviewed and adjusted the compensation structure that includes living expenses and maintenance allowance. The Company also provides annual health check-up, health insurance, accident insurance and other coverage to be at a sufficient level. The objective is to create stability for the employees and their families while supporting them throughout the state of higher living cost so that they can compete in the labor market.

Besides, the Company and its subsidiary determine to recruit potential employees to support the future growth while continue to develop the staff's academic knowledge, mental stability and provide opportunities for the employees to grow along with the Company and its subsidiary. The culture of organization is also developed to improve the employees' skills and allow them to work more comfortably.

- **Risk from renting an estate for the operation of the subsidiary company :** At present the Company's subsidiary, Plearnpattana School, is operating on Buddhamonthon 2 Road in the area of over 32,000 square meters (20 Rai). The estate is rented from the shareholder of the subsidiary under two contracts of 30-year term and worth 10 Million Baht. It is agreed in the contracts that the lessor will not sell the estate to any person without a consent from the subsidiary company. If the lessor absolutely needs to sell the estate without any alternative measure, the lessor agrees to offer the estate to the subsidiary at the same price the lessor offers to the outside party. If the subsidiary company does not accept the offer in 60 days from the date of the offer, the lessor can sell the estate to the outside party. Nonetheless, the subsidiary company is reviewing the terms and conditions in order to sign an additional contract regarding the rental of the estate in order to reduce any possible risk.

Business Risk

- **Risk from products being outdated, damaged or superseded by other media :** At present the book business has grown significantly. There are more newly released books, resulting in the competition for the limited selling space, causing a rising rate of returned books. It is more difficult to find a sale channel for returned books while damaged books also increase in number. The Company then set up an order guideline for customers and appropriate credits for purchasing orders. Special promotions and efforts are also put in place to release outdated or damaged products. Moreover, the computer technology has been developed very quickly. The sales duration of computer books in which the Company is one of the leaders, is shorter than before. Electronics media has begun to replace books in some categories and some applications. The Company has adjusted the production policy to publish books with long life cycle at a higher proportion. At the same time, the Company still publishes computers, tools and new equipment manuals but will select only top products in the market. In addition, the Company has set up special sales channels to sell slow-moving books as well as the Company websites, www.se-ed.com and m.se-ed.com, which serve to inform customers of new books released and trendy books at particular times faster. In addition, there is the development of an application called 'SE-ED Currents', available on smartphone or tablet, to respond to the changing consumption behaviors.

Although electronic media has been rapidly developed and the market of 'e-book' and 'e-book Reader' has opened, the Company still believes that the market will take a considerable time to change the majority of Thais behavior who are not used to reading through electronic media to that point that it is strong enough to effect the book business in significant way. When the time for such a trend arrives, the Company is certain that it will be able to adapt to the trend very quickly, due to a certain level of supporting structure the Company already has in place. In 2012, the Company started the e-books service while still continue to develop the computer and IT system to increase efficiency and safety in e-book purchasing.

- **Risk in distribution channels :** Currently, a change in technology happens very fast. The competition in retail business is increasing. There is a competition to offer customers more choices, causing the consumer behavior to change all the time. The Company must make certain that all Company's available market channels are adequate enough to facilitate the market behavior and the customer's needs at all times, and great enough, while allowing channel development to serve the changes on a timely basis.

In the past, the Company has diversified risks of distribution channels through several channels apart from existing traditional bookstores, by opening up its own bookstores called 'SE-ED Book Center' and network stores in the leading department stores, supercenters, local shopping centers, IT centers, higher educational institutes, both in Bangkok and other provinces. SE-ED Book Center has the shared income of 80% of the 2015 total revenue.

In opening up new bookstore branches, the Company has the policy to improve branches periodically to best suit and serve the market in each locality, to prepare for greater competition at all times. The Company also diversifies risk by not attaching itself or opening the bookstores in only one particular group of shopping centers. But it seeks to open stores through several different shopping center owners. Several big branches are under a long-term leasing contract ensure sales stability in each location. Therefore, if any department stores or supercenters encounter problems or cannot operate for any reasons, or changing the leasing policy, the Company's income will not be significantly affected.

The Company has acquired all the assets and products insurance to reduce an unexpected risk that might occur.

In addition, the Company has developed the distribution channel through the Company's website called www.se-ed.com to support the sales of books and products in the e-commerce system. Additionally, the Company has launched its mobile website, m.se-ed.com, for mobile devices such as Smartphone or Tablet to allow customers more convenient alternatives to book shopping and finding a greater varieties and numbers of book titles. The Company expects that such channel will bring in a larger revenue pool for the Company in the future as the result of dramatically growing internet usage from general public. The new channel will also aid the increasing e-book trade in the future.

- **Risk from economic recession affecting the growth of advertising industry** : Risk from economic recession is affecting the growth of the advertising industry and may actually affect the total revenue of the Company as magazines published by the Company generate its main revenue from advertisements. The Company is aware of the problem and seeks to develop new publications that focus on specific contents for specific market. In 2012, the Company has developed a digital magazine, website www.se-edmag.com to open up a new market because of the convenience in accessing the contents via electronic and mobile equipments. The chance of higher revenue in advertising will also increase as a result. In addition the Company has a policy of securing long-term advertising contracts with clients and employ the sales promotion strategy by stressing special promotion as an incentive for customers to invest in advertising with the Company, such as deployment of barter system for product-in-exchange-of-advertising to expand customer base and support the business growth and reduce the effect of risk from media advertising industry which may periodically slowdown. Moreover, the company also made additional revenues from organizing seminars, selling IT products, selling online advertisements on www.thailandindustry.com and in digital magazines to compensate the missing revenue.

- **Risk from reselling censored and pirated books** : As some of the products such as, CDs or other publications may be stipulated and restricted by laws, some products must first obtain a permission before sales and some are directly related to the copyright. This causes the Company to be relatively cautious towards the production and acceptance of product distribution both for retail and wholesale market, so as to avoid any illegal practice, any violation of others' copyrights, any arising conflicts that may lead to court cases and any possibility of protests.

The Company's editorial staff has to select the original manuscripts more carefully and cautiously in order to avoid the problem of copyright infringement. Besides, the Company has specified in the contract with authors or manuscript owners that they have confirmed that their works or products belong to them and did not infringe upon any copyright and will fully compensate all damages incurred to the Company if the copyright infringement occurs. This will reduce the probability of any damages caused by this problem.

The Company has a policy to completely object the sales of copyright-violated products and has organized trainings for authors and general public to understand and be more aware of the laws regarding copyright infringement.

However, very few problems occur and the affected value is not significant.

- **Risk from printing industry** : As the Company has not invested in printers, the Company has no risk in this aspect and does not adversely suffer from price war in the printing industry. The Company chooses several printers to support productions so that the Company can control expenses properly to the competitive printing price offer all the time and can fix the production time duration definitely.

Financial Risk

- **Risk from providing credits** : The Company still faces a risk in giving credits to trade debtors. However, the Company sets a policy to properly limit the credit and establish a system that can consistently follow up on debts from debtors. The Company revises the credit limit for debtors every year in order to change the limit to be at an appropriate level and in line with the current economic situation. The Company has a policy of giving a credit carefully and shares the debts among debtors. The Company also considers the case of possible debt loss appropriately. It is then believed that the risk from debt loss is at a low level.

- **Risk from foreign currency exchange** : As the Company has signed the agreement to be the sole distributor for all Oxford University Press (OUP) English Language Teaching (ELT) books in Thailand and also holds the right to sell in the territory of Cambodia, Laos, Myanmar, and Indonesia in the effort to push forward the English language education in Thailand as well as the neighboring countries, resulting in problem of currency fluctuation caused by the purchase of books in foreign currency. Thus, to minimize the risk at the acceptable and optimal level, the Company has the policy to carefully select contracts to be committed to in order to prevent risks from the exchange rate.

Production Risk

- **Risk from raw materials and product deficiency** : Paper is the important raw material in book production and price has changed variously according to market demand and production quantity all the time. But the books published by the Company have target group with purchasing power and are well educated enough for the Company to use the policy to set price in accordance with the real cost in that period, and this does not cause a considerable impact to the Company.

As the Company has the major revenue in being a publisher, a distributor, and a retailer, the Company tries at best to maintain the role as respectable neutral element who sells books for every publisher which is in demand by the market, and the Company business policy is determined on the basis of good ethical standard in business practices. The Company has its duty to adhere to the ethical standard of business conduct. The cause of trouble or injustice occurring from the Company business conducts aiming towards any interest groups will not be tolerated. Owing to this, the Company has evidently long been supported by most suppliers in book industry, and it also makes the Company less dependent on the revenue from one particular supplier.

Corruption Risk

- **Risk from corruption Risk from corruption of branch employees, warehouse employees and headquarter employees** : The Company has installed security cameras at the warehouse and store branches and employed security guards to check employees and visitors of the warehouse to prevent them from stealing books from the warehouse. In addition, the Company has installed Electromagnetic poles at the store branches with high loss percentage. In the long term, the Company has planned to install more poles at every risk branches as well as increase its security measure to prevent and control internal corruption. The Company has also set up Loss Prevention Department or LPD to apply necessary measures to stop corruption of employees at store branches. Additionally, the Company's Internal Audit and Investor Relation Department has a responsibility to investigate, control and prevent corruptions in every operation

level. The department also draws up measures to prevent employees, executive staff and members of the Board of Directors to use internal information for personal benefits. The Company has ensured that the approval of every expenses, investments, and purchases has been processed according to the guideline of the policy of the Board of Directors. In addition, every new employee will be informed of the guideline, rules and regulations of the Company's operation as stated in the Company's Ethic and Business Conducts Guideline.

- **Risk from loss of office supply :** The Company has improved the issue system of materials and office supply by printing the issue document with the remaining inventory record from the central system for employees' review. The Company also uses the barcode system in controlling the stock of office supply and improving the asset transfer process between departments or employees within the same department. The asset return system is also improved to be more concise and efficient in order to prevent asset loss.

- **Risk from access to information in order to destroy or corruption purpose :** The Company has implemented a measure to control information access by allowing employees to access the information that is relevant to their work only.

Date of Shareholders' Meeting and Meeting Procedure

The Company attempted to improve the process of shareholders' meeting to ensure the suitability consistently, particularly after 2005 onward. It adheres to the principle that every shareholder should have equal opportunity in receiving the information and also equal chance for shareholders' right, including the right to voice opinion or to offer suggestions that are beneficial to the Company.

To register for the meeting, the Company will allow registration for at least 2 hours prior to the beginning of actual meeting and continue to do so until the meeting is over - a regular practice since 2005. In addition to that, the Board of Directors will also seek to serve the shareholders with the staffs and adequate number of computer. In the general shareholders' meeting 2007, the Company, for the first time, started using a barcode system for registration purposes to facilitate the shareholders, as well as an arrangement to print voting cards in each meeting agenda for every shareholder.

The Company prepared staff to serve shareholders in acquiring information and serve the query points. Moreover, a welcoming meal is organized for attended shareholders. The Annual General Shareholders Meeting 2015 was convened in Meeting Room C, 9th Floor, Interlink Tower (originally Nation Tower). The Company reserved

sufficient parking space for the shareholders and provided maps with information about public transportation that was attached to the invitation letter.

For those shareholders who were available to attend the meeting by themselves, the Company allowed the shareholders to authorize an independent Director for at least 1 individual or authorize the managing director or the Company's secretary to attend the meeting and vote in representation. In the general shareholders' meeting 2015, there are shareholders who request for representative authorization as :

- 2 shareholder authorized Mr. Somboon Chinsawananon, the chairman of the Board of Directors and also an Independent Director.
- 1 shareholder authorized Mr. Saroch Lamlerprasertkul, Vice-Chairman of the Board of Directors and also an Independent Director.
- 1 shareholder authorized Mr. Kachen Benjakul, Audit Committee and Independent Director.
- 27 shareholders authorized Mr. Viboolsak Udomvanich, Director, Deputy Managing Director, and the Company's secretary.

Prior to the meeting, the Company played a DVR introducing the Company history, its annual operating results to all shareholders to learn about the Company information before the start of the meeting. There was also another video presentation about the promotion of the corporate governance related to shareholders' meetings of listed companies. Before the meeting really begins, the Chairman will explain the method of voting and counting. The counting of votes will be illustrated and the results of every step in the meeting room will also be summarized. In case the shareholders cannot attend the meeting, the Company allows the shareholder to authorize someone, independent Director(s), Managing Director, or Company's secretary representing them in the meeting. During the meeting, the Company provides adequate time and allows a fair chance for shareholders to ask questions. The Directors who are related to that question, particularly Chairman of auditor Committee, Chairman of Committee and Managing Directors, including the high-level executives in the area of accounting, finance, internal audit and accounting audit to attend the meeting at the same time to answer some of the questions in the meeting. The Chairman will moderate the meeting according to the scheduled meeting agenda. But such meeting will not allow an un-announced meeting agenda, with the total time of 2 hours and a half or more.

The Board of Directors put the emphasis on attendance of the Annual General Shareholders Meeting in order to receive questions and feedbacks. In the Annual General Shareholders Meeting 2015, 12 directors attended the meeting. However, Chairman, Managing Director, and Chairman of every subcommittee attended the meeting. The Company's executives in accounting, finance, auditing and auditors were also in attendance to answer questions of the shareholders. In addition, the Company invited a neutral auditor, Mr. Sunan Pungmaklong from Chuan and Associates Law Office to supervise the vote counting.

The significant agendas for shareholders' meeting are as follows :

- **Operating result** : The Company has declared the details of the information about the Company's operating result, profit, revenue, expenses, and summary of operation on the chart.
- **Appointment of the Board of Directors** : The Company allows opportunity for shareholders to select the Directors of the Board of each individual, by providing biography information, education history and work experience and inform shareholders about the vision of each director before voting begin. In case of former directors being the candidate, the details of the board meeting participation will also be fully provided.
- **Auditors Appointment** : SE-ED details the name of auditors, auditor's office, remuneration, the reason for auditors selection, the past year's performance quality and Company's relationship.

- **Profit Allocation** : The Company supplies details on profit allocation and reserve funds, dividends regarding the Company's dividend payment policy as well as the registered book closing date in order to give right of receiving dividend.
- **Board of Directors' Remuneration** : The Company provides offered remuneration details which are based on policies and conditions of the Board of Directors' remuneration. Those aspects are considered by Committee regarding remuneration

In the voting, the shareholders used voting cards to vote deploying barcode systems to count vote more rapidly and efficiently. The Company will collect the voting card only in case there are shareholders who vote against or abstain from voting, but for the Board of Directors' election, to be in line with the best practice of shareholders' meeting, the Company collected the voting cards from the each of the participated shareholders and voting of Directors will be voting for each Director. Moreover, the Company has requested a law consultant to join the vote counting procedure and confirmed the result with accuracy, transparency, and in accordance with the Company's regulation. For the result of voting in each agenda, the Company immediately announced the result of the vote in each agenda of each shareholder's resolution regardless of whether the vote result shows on the outcome of agree or disagree.

After the meeting, the Board of Directors will allow chance for shareholders, analysts and general investors to answer to the inquiry, by having the Chairman, Sub-committee chairman, managing director, and senior executives in accounting and finance to jointly answer. However, in replying to the inquiry, the Board of Directors will adhere to the equal opportunity to the Company's information.

After the meeting day

The Company's directors assigned the secretary to disclose resolutions and voting results from the shareholders meetings on the day after through the Stock Exchange of Thailand and the Company's website. During the shareholders meeting, the company's secretary has recorded important questions, and remarks from the meeting, counting votes and concluding resolutions. The number of votes for each agenda is clearly recorded and divided into in favor, against, and abstention. Shareholders meeting reports along with pictures and audio records will be posted on the Company's website Investor Relations (<http://corporate.se-ed.com>) within 14 days from the meeting date.

Equitable Treatment of Shareholders

The Company's Board of Directors is aware of the equal and just treatment to all shareholders.

1. The Board of Director assigned the Company's secretary to announce to the shareholders through the communication channel of Stock Exchange of Thailand and investor websites for shareholders to propose meeting agenda, lists of persons to be positioned as Directors and submit questions in advance. The Board of Directors determines the time to receive the request directly to the Company's secretary, investor relation, independent Directors or via website by proposing the meeting agenda and name of the person to be positioned as Directors at least 3 months prior to the last date of the fiscal year, in which criteria of consideration is posted on the website of investor relation. The Company's secretary will propose the name as proposed by shareholders to the Recruitment and Remuneration Committee to examine the qualifications and then propose it to the Board of Directors and then to the shareholders' meeting. The Board of Directors will examine the suitability whether to add the agenda as requested by shareholders to the meeting or not based on said criteria, by allowing shareholders to propose names of candidates to be positioned as Director and propose the agenda in advance which has been a normal practice since 2006.

2. The Board of Directors proposes the name of 1 Independent Director as a choice for proxy of shareholders who holds the proxy authorization to exercise the right in the meeting and voting for each agenda. In general shareholders' meeting 2015, the Board of Directors proposed the names of 5 independent Directors.
3. The Board of Directors moderate the shareholders' meeting according to the agenda announced earlier in the meeting's invitation document, and will not add any agenda to the meeting without informing shareholders in advanced, so that the shareholders have enough chance to study the information of the operation performance to be considered in each agenda adequately and suitably.
4. The Company's Board of Directors prepares the voting cards for all agendas. The Company has used the barcode system for recording and displaying the voting result since 2006, while preparing staff to facilitate the collection of voting cards in the meeting room, which except in the case of voting to elect Directors, the staff will collect voting cards whether they be yes, no, or absentee' votes. And after the meeting, staff will collect the voting card for all agenda. Moreover, the Board of Directors arranges to have legal consultant to witness the voting count for transparency.
5. The Company's Board of Directors assigns the Company's secretary to prepare and write the meeting report accurately and completely, and then disseminate the meeting report to all shareholders through investor relation website and the Company also submitted the report to the Stock Exchange of Thailand no more than 14 days after the date of the meeting. Moreover, the Company also broadcasts audio and video of the shareholders' meeting on the investor relation website to allow interested shareholders to view the past meeting.
6. The Company determines preventive measures to tackle the use of inside information to benefit Directors by announcing to all parties concerned to be aware of role and duty to report the status of security holdings of each individual, spouse and children who hold security and whose ages are not considered sui juris and acknowledge the change in security prepared reports for each time there is a buy, sell, transfer or receive of security to the Security and Exchange Commission according to the Article 59 of Security and Exchange Commission Act. (B.E. 2535) within 3 days after the date of purchase, sell, transfer or receive the transfer of security and notify the company's secretary to inform the Board of Directors in respectively. The Company always alerts in the meeting of Board of Directors and all management committees. Moreover, the Directors and management also acknowledges the duty and responsibility as stipulated and penalty as stated in Security and Exchange Commission Act (B.E. 2535), and the Company prohibits the management who know the inside information of the Company to not violate article 241 of the already-mentioned law, including the related regulation.
7. To prevent conflict of interest, the Board of Directors carefully supervises. When there is an item that may result in a conflict of interest, the Company seeks to stipulate the policy and procedure of the related item approval in written form, including the policy and method of supervision so that the management and related persons will not use inside information to their own benefit, as follows :

Items that may have conflict of interest : The Company's Board of Directors carefully monitor to avoid any conflict of interest that may arise and also look into the related items, by stipulating in the policy and steps of approval for each item in written notice. Moreover, the Audit Committee proposes to the Company regarding the items that could cause conflict of interest. The Company's Board of Directors has been particularly careful when consideration is made, in accordance with criteria stipulated by stock exchange through the determination of price and condition as if such items are dealt with the outsiders (Fair and at Arms' Length) and disclose the inter-related items which are significant, item value, counterparty, reason/necessity in annual report and annual information disclosure report.

The Board of Directors approved the principles and suggestion of Securities and Exchange Commission in accordance with the Section 89/12 (1) of Securities and Exchange Act (No.4) B.E. 2551 to allow the company management to enter in to any business transaction between the Company and its subsidiaries and directors, executives or related persons in case the transactions have the same commercial terms as those an ordinary person would agree with any unrelated counterparty under the similar circumstances, on the basis of business negotiation which is without any influences directly resulted from the company's positions of director, executive, or related person. However, the Board of Directors has assigned the Audit Committee the task to present the items which may pose a conflict of interest and any related items for the transaction over 2 Million Baht per quarter and reports it directly to the Board of Directors to acknowledge in a quarterly basis.

In the meeting of Board of Directors, should the Directors have interest in the decision, the Chairman of the Board will request for Directors to abide to the regulation and have the Director informed to the meeting and is asked not to vote or voice opinion for the matter.

Supervision on the of insider information : The monitoring of policy and measures are in written format with respect to the Good Corporate Governance and handbook for the Board of Directors which has already been discussed in the Board and Executive meeting. The top management of the Company have also been informed about the announcement of Securities and Exchange Commission which stated that the management (including the spouse and legitimate child who has not become sui juris - or, in other words, not yet 20 years of age) must report the change of stock ownership to the Securities and Exchange Commission as stipulated in the law called Securities and Exchange Commission Act B.E. 2535 in the section 59 within 3 days after the change of ownership of Securities taken place, and also report to the Company's secretary to report to the Board of Directors for acknowledgement. Moreover, the management in the meeting has also been informed about the penalty imposed upon those who violate the laws.

The Company has the policy that sets the guideline for the practice of Good Corporate Governance, ethical practices of the Board of Directors, including the regulation that prohibit the staff from taking the Company's document or information for personal use, or bring outside the Company, without asking for permission. This also includes exposure of financial documents or other related documents for outsiders, and also prohibits the trading activity within 1 month prior to public release of financial information. If done so, the act can be considered 'misconduct' to the Company's rule of conducts. Should the management or staff violate such rules of conduct, the penalty can be ranged from warning, fine, work suspension, work without pay or job termination.

Roles of Stakeholders

The Board of Directors: The Company has given priority to all groups, regardless of being internal vested interests such as the employees or the management of the Company or external vested interests such as trade partners, competitors, writers, translators, public servants and other involved parties. Since the Company realizes that support from vested interests can help in competitiveness and profitability of the Company, they are regarded as important to the long-term success of the Company. The Company has identified the guideline of practice in written form in the good corporate governance policy that the Board of Director supports the cooperation between the company and the stakeholders. The Company also developed an employee manual about business ethics and morality. This manual is to become the regulations and rules that need to be strictly followed by directors, executive staff and every employee. It also seeks to determine the communication channels. Moreover, the Company will take care of stakeholders according to the relevant laws, and, by no means, act in violation of stakeholders' rights, which can be described as below.

Moreover, the Company has set a policy in good governance for all stakeholders through the Company's Sustainable Balance Report. As the Company considers corporate social responsibility for community and environment its main mission, the Company has focused on its corporation with every stakeholder to promote the sustainable growth of the Company. Anyhow, Environment and Society Policy of the Company can be viewed in Corporate Social Responsibilities (CSR) Section.

In 2011 there was an announcement of Safety and Health Care in the Workplace policy, Human Rights Policy, Anti-Corruption Policy, Anti-Copyright Violation Policy and other policies that may affect all interested parties. These policies will draw a clear guideline and support the business operation that is moral, just, transparent and appropriate.

The Company puts an emphasis on occupational safety and health by prioritizing employees' health and safety because employees are an invaluable asset of the Company and a key factor for the Company's sustainable growth and competing competency. In 2015, there were 5 employees in the head office, warehouse and branches that were injured and needed to take a leave; 3 of which had a minor injury and 2 suffered a severe injury (that required a minimum of 3 days leave). The Company is determined to reduce the accident rate and not ignorant of any possible accidents or dangers that could affect employees' health and wellbeing. The Company will provide support to employees who are injured or suffer from any kind of danger. The Company will also investigate the cause of injury and finds a solution to prevent the same problem from happening again.

Regarding Human Rights Policy, the Company realized every employee is entitled to work in a clean and safe environment, as well as without any human rights abuses. The Company also supports employees to perform their potential and self-esteem that are parts of organization's sustainable development. Therefore, the Company has a set of policies that every executive and employee have to abide by. The Company is committed to fairly and honestly manage remunerations, welfares, benefits, and employment conditions that are in line with same industry norms, where the Company provides higher benefits than the legal requirement. In addition to annual health check-up, the Company has also set up a provident fund in 1989 under the name 'SE-EDUCATION Registered Provident

Fund'; later in 2004, the fund's name was changed to 'SE-ED Rich Retirement Registered Provident Fund'. and in 2015 the Company transferred provident fund to "The Registered Provident Fund CIMB-Principal Target Date Retirement" The fund aims to promote saving for that employees can have a happy retirement life. Moreover, the Company recognizes the rights and freedom of creative association; of information accessibility; and of opinion and suggestion expression to improve the organization's operation. Employees are able to file a complaint if they feel they are exploited or unfairly treated. The Company is committed to work with business partners who respect human rights and uphold laws and regulations, especially labor protection. In 2015, the Company did not receive any complaints against the human rights abuses from employees, business partners, and local communities.

Moreover, the Company encourages employees to practice and develop their knowledge and competency by introducing projects that will give employees a chance to showcase their abilities and potentials. Employees are allowed to directly present their ideas and express opinions for organization's development to the executives. However, new employees are required to attend orientation for 6 hours to gain more knowledge. Employees are also required to attend training courses for 6 hours per year to increase and improve skills and expertise in their field of work.

Employment Development Training

Level of Employee	Training Hours	Objectives
Manager	6 - 18	To develop management skills and personal, and to receive product training through management systems: Classroom Workshop and Coaching.
Operation Staff	6 - 18	To enhance skills required in a particular field of work such as customer service and mental health development for human resources and organization development.

Regarding the Anti-Bribery and Corruption Policy, the Company has formulated a policy on prohibition of bribery and corruption in any activities implemented on behalf of the Company. In case of charity donation, business gift exchange, and sponsorship, everything must be done in a transparent manner, with no hidden

has been officially announced as a moral principle for all executives and employees. The Punishment Measure is also strictly implemented against the executives and the employees involving in internal fraud, bribery and corruption. In addition, the Fraud and Corruption Assessment is annually conducted and the result is presented to the audit committee and the board committee respectively. The principles are also emphasized through training and meetings to ensure that every employee is aware of the importance of honesty. To enhance the efficiency of the policy, our employees participated in Fraud and Corruption Preventive Training offered by relevant organizations. For example, in 2015 our representatives attended

Regarding Intellectual Property Infringement, the Company has tremendous spirit against copyright infringement. According to our policy, we do not produce, distribute or support any products of copy infringement in any circumstances. The Company also encourages and broadens understanding of intellectual property to our business partners, writers, and the general public. In 2015, the Company was not claimed to be engaged in any copy dispute with any stakeholders.

In addition, the Board of Directors also determines the communication channel with the independent Directors via postal mail or email to permit reporting channels and suggestions so that instruction on the information examination process can be made.

For the report on any illegal activity: The board of committee also provides procedures and a channel of copyright infringement and appeal, by post and email:

Registered mails	Independent Directors, SE-EDUCATION Public Co., Ltd. 1858/87-90, Interlink Tower Building, 19 th Floor, Bangna-Trat Road, Bangna, Bangkok, 10260

Employees own rights to directly inform and report corruption, code of conduct violation, and rights abuse to the directors, or their secretary, or to a department that has set up to be responsible for it. Employees are also able to express and share their opinion and suggestion about the operation of the Company. However, the Company has already set up the Department of Internal Audit and Investor Relations that is responsible for receiving all complaints from employees. Besides, employees also directly send a complaint e-mail to the Independent Directors. Every complaint and suggestion will be decided on a case-by-case basis. All complaint and those who complain will be entirely secured, therefore, there is no harm or effect on them.

In 2015, there was no person with interest reporting through the communication channel with independent directors. However, the Company will publicize to all interested public to be aware of the communication channel with independent directors.

Disclosure and Transparency

The Board of Directors has a policy of the Company as a role model in operating on the basis of transparency, verifiable, adequate disclosure of information for all parties concerned, monitoring to ensure the disclosure of accurate information with trustworthiness, completeness, timeliness, and equal access of information to everyone.

The Board of Directors has a policy for the directors with potential of conflicts of interest to report the ownership of assets of the directors, spouses and legitimate child who has not become sui juris annually.

The Board of Directors has a policy for related transactions by allowing transactions with conventional conditions. As for transactions between the Company and its subsidiary with the directors, the executives or related parties, the transaction agreements must be what a reasonable man should achieve with any ordinary contract partner in the same situation. Any negotiation must be without influence from the directorship status or the status of an executive or a related party. The Board of Directors assigns the Audit Committee to investigate any transaction

with potential conflicts of interest or any related transaction that is worth more than 2 million Baht per quarter and report to the Board of Directors' meeting in every quarter.

Directors' Report The Board of Directors is responsible for the financial statements of the Company and financial information, appeared in the annual report. The financial statements are prepared according to generally accepted accounting principles in Thailand, using the accounting policy that is suitable as practice regularly and with careful discretion together with the best projections in the preparations, including disclosure of important data adequately in the added notice section supplementing the financial statements.

The Board has provided and maintained all necessary requirement of the internal audit with effectiveness, to ascertain with rationality that the accounting records are correct, complete and sufficient to maintain the assets and to learn of any weakness so that any significant irregularity can be prevented.

The Board of Directors of SE-EDUCATION Public Co., Ltd. has appointed the Audit Committee consisting of non-management Directors to supervise the quality of the financial report and internal control, as well as the opinions of the audit Committee regarding this issue. Comments concerning this matter appear in the report of the audit Committee, already shown in the annual report.

The Board of Directors considers overall internal control of SE-EDUCATION Public Co., Ltd. to be satisfactory, and is trustworthy for the reliability of the financial statement of SE-EDUCATION Public Co., Ltd. as on December 31, 2015.

Relations with Investors The Board of Directors is aware that data concerning the Company's finance and non-finance aspects all play certain roles in the investor's decision-making process and vested interests. It therefore ensured that the management who has implemented matters concerning disclosure of data was complete, accurate, reliable, consistent, timely, and equal to that which the management has always given priority and upheld all along.

In disclosing important information of the Company both financial and non-financial, the Company used the Stock Exchange of Thailand as a channel. Moreover, the Company also discloses the information through the Company's investor relation website both in Thai and English, for example, Basic information about the Company, annual report, annual information disclosure report, financial ratios, historical data on dividends payout, shareholders and investors information dissemination, and non-monetary information such as, Corporate Governance policy, public relation, this information is always updated on a continual basis.

The Board of Directors has set up a business unit for investor relation to support the direct communication with investors, institution, shareholders, analysts, and related governmental sector. The investors can directly contact for more information by Mr. Wichian Rungpoonsap at tel. 66-2739-8000 ext. 8, 66-2739-8690, fax. 66-2739-8699, or e-mail us at : ir@se-ed.com and also click on website <http://corporate.se-ed.com>. Moreover, the investor relation has also been a member of Thai Investor Relations Club since 2006.

In 2015, the Company presented the result of business operation both in the Company's monetary information and also non-monetary information for analysts and investors through e-mail, website, and telephone that includes a consistent active participation with the Stock Exchange of Thailand, which can be summed up below:

- Institutional Investor inside/outside the country met with management 1 times
- Responses to e-mail, website, and telephone inquiries 32 times

Furthermore, the department of investor relation has set time duration of non-disclosure practices of information relating to the earning result to shareholders, investor, and analyst 7 days prior to the date that the Company submits the report of the earning result to the SET.

Not only the information is being disclosed, as stipulated by law of supervising body, the Company's Board of Directors also assigned the managing director, deputy managing director, accounting department director, finance department director, and Company's secretary to participate in activity of investor relation for its highest effectiveness

for shareholders and investors. Moreover, the Company's Board of Directors also assigned the Audit Committee and the Company's secretary to monitor the annual operation plan, budgeting, manpower, and acknowledge the work result of investor relation divisions through Investor Relation Internal Report, which collects all data from different sources, opinions, and suggestions from questionnaires collected. At the same time, the Audit committee and Company's secretary also reported to the Board of Director on a regular basis in each quarter.

Board Responsibilities

The Board of Directors consists of people who are knowledgeable, competent, skillful, experienced in business operation, and understand very well the role and duty. This makes the work more effective.

As such, the Board of Directors participates in vision, mission, strategy, target, and business plan of the Company annually and also monitors, follows up and assesses the result of business management and operation to be in line with objectives and business plans working effectively, according to rule, laws, and regulations of each business unit under supervision and also related governmental unit, and also according to the resolution(s) from the Shareholder's meeting to maximize the economic value added to the business and also stability to the Shareholders, while at the same time take into account of all stakeholders at best. In 2015, the Board of Directors has reviewed and approved the Company's vision, mission and strategy 2 times.

Moreover, the Board of Directors arrange a communication of strategy, objective, and operation result of the Company for managing director/senior executives, staff to acknowledge and understand in a corporate-wide fashion, through several mediums such as the Company's email, announcement boards, management weekly meeting, staffs conference, where the Company organizes regular annual staffs conference. The managing director of the Company later briefed the business environment and overall views of operation performance in the past year, as well as making announcement for the direction and objectives of operation for the following year. Moreover, the Company also organized the senior executives meeting together with staff supervisors to create a joint year-plan, in order to set a direction and guidelines. Doing so allowed the plan to conform to the highest corporate direction and objective, which, in turn, led to all business operations of the Company, effectively heading towards a common goal.

For the act of duty for Directors, all the stated principles will be of honestly, directness and abiding by the rule of laws and regulations of the Company. By adhering to the principles for every business activity, all decisions and transactions made will be processed with honesty at its core.

The Board of Directors shall consider prescribing and separating the duty and responsibility between the Directors and the management clearly including communicating the roles, duties and responsibilities to the Directors, the management and the employees of the Company regularly.

Policy for the Company's Directors and Executives in other firms

In 2007, the Audit Committees reviewed the principle of Good Corporate Governance which has been revised for the fifth time since 2001 to be submitted to the Board of Directors to consider a policy to allow the Company's Directors to hold positions in other companies listed in the Stock Exchange of Thailand no more than 5 companies, and in 2010 there was an adjustment in the policy that only allows directors to take a position at no more than 3 listed companies in the Stock Exchange of Thailand in order to comply with the advice of Stock Exchange of Thailand.

Moreover, the Company's Board of Directors stipulated that the managing director and high executives can also hold the posts of Director in other companies as seen necessary and does not affect the duty and responsibility of the Company but must be approved by the Board of Directors or Authorized person.

The Board of Directors has not determined the term of Directors and Independent Directors, since the Company's Board of Directors believes that the expertise in the book business and other matters concerned does not depend on the number of terms in the position, but the director should have the ability and time to dedicate for the Company to their best ability in coming up with strategy, creative vision, and offering consultations to business operations. The decision to select individuals for the positions in the Board of Directors is totally the shareholders' right.

Balance of Power for Non-Executive Directors as of December 31, 2015 The Board of Directors consists of 12 members :

- Directors that are in the management team : 2 persons
- Directors that are not in the management team : 5 persons
- Independent Directors : 5 persons

Therefore, the 5 Independent Directors which are accounted for 41.7% of all Directors which is still lower than the suggestion that the Board of Directors of a listed company should consist of more than 50% of Independent Directors, according to the survey of corporate governance of Thai listed companies by Thai Institute of Directors. However, the Company's definition of an Independent Director is more strict than the definition set forth by the Office of Securities and Exchange Commission (SEC) and the Stock Exchange of Thailand. Thus, the Stakeholders can be sure to allow these Directors to represent the shareholders independently, resulting in check and balance for management.

The Board of the Company is responsible for performing its duties according to legality, objectives and company regulations and shareholders' resolution with integrity for the Company's best interest. The Board of the Company has an exact amount of time to be in office, which is consistent with the Company's regulations which stated that one-third of Committees who have the longest term in position must accept the resignation in each annual general meeting.

The Board of Directors has sought to prescribe the definition of the term 'Independent Director' during the Board of Directors' meeting number 3/2009 which is stricter than minimum frame of definition of Independent Directors announced by the Security and Exchange Commission (SEC) and the Stock Exchange of Thailand (SET). In the Board of Directors meeting no. 3/2012, the definition of 'independent director' was revised to be consistent with the definition from the Stock Exchange of Thailand, in 'Independent Directors Handbook' dated March 29, 2012 as follows :

1. Holds shares not exceeding 0.5% of the total shares with voting right of the applicant, its parent company, subsidiaries, associates, major shareholders, and controlling parties of the applicant, provided that the shares held by the related parties of such independent director shall be included.
2. Is not or has never been an executive director, employee, staff, advisor who receives salary, nor controlling parties of the applicant, its parent company, subsidiaries, associates, same-level subsidiaries, major shareholders, or controlling parties of the applicant unless the foregoing status ended for at least 2 years.

3. Is not the person who has relationship by means of descent or legal registration under the status of father, mother, spouse, brother, sister or children. The prohibitive persons also include spouses of daughters and sons of management, major shareholders, controlling party or the person who is in the process of nomination to be the management or controlling party of the applicant or its subsidiary.
4. Have not or never had business relationships with the applicant, its parent company, subsidiaries, associates, major shareholders or controlling parties of the applicant in respect to holding the power which may cause an obstacle of the independent decision, including not being or never been the significant shareholder, or controlling parties of any person having business relationship with the applicant, its parent company, subsidiaries, associates, major shareholders, or controlling parties of the applicant unless the foregoing status ended for at least 2 years.
5. Is not or has never been the auditor of the applicant, its parent company, subsidiaries, associates, major shareholders, or controlling parties of the applicant, and is not the significant shareholder, controlling parties, or partner of the auditing firm which employs such auditor of the applicant, its parent company, subsidiaries, associates, major shareholders, or controlling parties of the applicant unless the foregoing status ended for at least 2 years.
6. Is not or has never been the professional service provider, including but not limited to legal service or financial advisor and received a service fee more than 2 Million per year from the applicant, its parent company, subsidiaries, associates, major shareholders, or controlling parties, and is not the significant shareholder, controlling parties, or partner of the above mentioned service firms unless the foregoing status ended for at least 2 years.
7. Is not the director who is nominated to be the representative of the directors of the applicant, major shareholders or any other shareholder related to the major shareholder.
8. Does not operate a similar business which can significantly compete with the Company and its subsidiary's businesses. Does not have a significant amount of shares of a partnership or take a position of a director with an active managing responsibility. Is not an employee or a consultant who receives regular salaries or holds more than one percent of the voting stocks of other companies who operate a similar business and can significantly compete with the Company and its subsidiary's businesses.
9. Is not any otherwise which is unable to have the independent opinion regarding the business operation of the applicant.
10. After being appointed as the independent director in accordance with the conditions under the article (1) - (9), such independent director may be assigned by the board of directors to make decisions in respect to business operation of the applicant, its parent company, subsidiaries, associates, same-level subsidiaries, major shareholders, or controlling parties of applicant.

However, the independent Directors had examined the qualifications of independent Directors in an annual basis, and the Board of Directors trusted that the stipulated qualifications of 'independent Directors' which is stricter than guideline of Security and Exchange Commission (SEC) and Stock Exchange of Thailand (SET) minimum frame of reference will be adequate for the Company's selected independent Directors to be truly independent and appropriate for the particular characteristics of the Company.

Position Combination or Separation : The Company has made this a policy that the Chairman of the Board of Directors shall not be the same individual who positions as the managing director, to ensure the check and balance and, so, made reviewing of work more transparent.

The Chairman of the Board of Directors comes as independent Director and is the leader and meeting moderator who controls the flow of the Board of Directors' meeting in effective and efficient manner. In each meeting, all Directors are urged to actively participate, as well as raising essential questions. Directors also occasionally meet to advice and help the business management with the managing director. At the same time, the Board is to stay away from routine day-to-day operations or business activities responsible by management, where the managing director is the head of the management team. The Board of Directors has authorized the managing director or the authorized person to sign in binding document as has been directly authorized. The Managing director then effectively authorizes and empowers the high executives with the tasks which are clearly marked in term of line of duty and responsibility. Therefore, the authority and role of the Board and that of the management are clearly defined and separated.

Sub-Committees

The Board of Directors appointed Directors who have the qualifications suitable to undertake, study and analyze details of various matters as assigned by the Board of Directors for sub-committees to take charge. Moreover, the Board of Directors also stipulated the qualification, elements, term and duty of sub-committees in a clear manner. Most sub-committee members consist of independent Directors and Chairman of each sub-committee who is also an independent Director. The Chairman of the Board of Directors will not perform a role as Chairman of sub-committee, except the Recruitment and Remuneration Committees. The sub-committees reported each of the result of meeting and assignment to the Board of Directors on a regular basis, including the report on operations result to inform shareholders in the annual report.

Presently, the Company has 2 sub-committees, consisting of :

1. The Audit Committee
2. The Recruitment and Remuneration Committees

The details of name list and responsibility are referred to in the section Management Structure.

Roles, Duties and Responsibilities of the Board of Directors

The Board of Directors consists of people who are knowledgeable, competent, skillful, experienced in business operation and understand very well the role and duty. This makes the work more effective.

As such, the Board of Directors participates in the vision, mission, strategy, target and business plan of the Company and also monitor, follow up and assess the result of business management and operation to be in line with objective and business plan worked effectively, according to rule, laws and regulations of each business unit under supervision and also related governmental unit, and also according to the resolution(s) from the Shareholder's meeting to maximize the economic value added to the business and also stability to the Shareholders, while at the same time take into account of all stakeholders at best.

The Board of Directors is aware of the importance of good corporate governance to increase transparency, competitiveness and confidence to the shareholders, the investors and the involved parties. So, it has prescribed in written format the policy on good corporate governance and also revised and updated the policy on good corporate governance and business ethic handbook that are suitable for the business environments and more international, by stipulating that the revision of good corporate governance policy shall be made once a year. In 2006 and 2007, the Audit Committees has prescribed additional good practice guidelines to ensure the clear direction to be used by all executives and staffs. In 2015, the Audit Committee has reviewed the principle of Corporate Good Governance that has been revised in the 13th Edition since 2001, seeks to add and improve the principle of corporate good governance in a much clearer and more coverage.

The Board of Directors, the Audit Committee and management support Directors, executives, and staffs to endorse the corporate good governance by arranging communication channel of corporate good governance both from the orientation of new Directors and staff, as well as adding course content to the training. Moreover, it seeks to add more dissemination channel relating to corporate good governance through website area whereby request for improvement and correction can be made to submit directly for acknowledgement of the Audit Committee.

The Audit Committee assessed the corporate good governance practice using the evaluation practice with reference to the principle designated in corporate good governance for listed companies (namely, 'Corporate Governance Self Assessment') of Stock Exchange of Thailand and consider in tandem with the assessment criteria of corporate good governance of Thai Listed Companies initiated by the Association of Thailand Institute of Directors for Audit Committee to acknowledge some Company errors that can be improved and corrected as well as developed. Moreover, the Audit Committee also designated the channel for staff to voice the suggestion for ways to improve on the corporate good governance through Internal Audit and Investor Relations division. However, in the assessment of good corporate governance of Thai Listed Companies as of 2015 (namely, Corporate Governance Report of Thai Listed Companies 2015), the Company has been evaluated by Association of Thai Institute of Directors as follows :

Business Ethics The Company is committed to doing the right things as a guideline for business of all the Directors and employees. The Company has announced the enforcement of business and employee ethics for the Directors, the executives and all the employees to uphold as guideline in performing according to duty with loyalty, honesty and justice. In addition, this also includes conduct with the Company and vested interests, the public and society. The Company has assigned the internal audit and investor relations section to continuously follow up on compliance with ethics, and prescribes disciplinary actions in case of violations.

The Board of Directors has confidence that a good corporate governance process can help to promote the operations of the Company, and is the heart of achieving the fundamental objective to optimize value for the shareholders. The values the Company aims and expects for all the Directors and employees to do in all missions are:

- Giving highest priority to building satisfaction for customers
- Having confidence in working together
- Dedication towards work with virtue and professionalism
- Upholding the principles of good procedure and discipline
- Readily responding to all uneventful situations

The Board of Directors understands the business operation, the responsibility to the Stakeholders, staff, environment and society. The Board has prepared the spread of business ethics, policies on social and environmental issues through several communication channels such as the public relation activities and staff's meetings. It also includes the follow up on the ethical conduct of business and stipulates the penalty measures.

Besides, in the beginning of 2011 the Company avowed the intention to join the Collective action Coalition to fight against corruption in Thailand's private sector together with Thai Institute of Directors, Thai Chamber of Commerce, Thai Banker's Association, International Chamber of Commerce and Thai Listed Companies Association. The Company avows that it will operate a transparent and legal business; it will not support corruption and will adhere to the good corporate governance principles. In addition, the Company has a policy to support employees to be a good citizen of the country and support the Company's business partners to operate a legal and transparent business with the goal to create a sustainably progressing society.

For prevention of conflict of interest the Board of Directors has paid special interest to items that may have conflicts of interest. By prescribing policies and procedures on approval of the connected items in writing, including prescribing the policy and supervision method so the management and the involved parties cannot use insider information for personal interest as follows:

Items that may have conflict of interest : The Company's Board of Directors carefully monitors to avoid any conflict of interest that may arise and also look into the related items, by stipulating in the policy and steps of approval for each item in written notice. Moreover, the Audit Committee proposes to the Company's Board of Directors regarding the items that could cause conflict of interest. The Company's Board of Directors has been particularly careful when consideration is made, in accordance with criteria stipulated by stock exchange through the determination of price and condition as if such items are dealt with the outsiders (Fair and at Arm's Length) and disclose the inter-related items which are significance, item value, counterparty, reason/necessity in the annual report and annual information disclosure report.

The Board of Directors approved the principles and suggestion of Securities and Exchange Commission in accordance with the Section 89/12 (1) of Securities and Exchange Act (No.4) B.E. 2551 to allow the company management to enter in to any business transaction between the Company and its subsidiaries and directors, executives or related persons. The transaction with the same commercial terms as those an ordinary person would agree with any unrelated counterparty under the similar circumstances, on the basis of business negotiation which is without any influences directly resulted from the company's positions of director, executive, or related person. However, the Board of Directors has assigned the Audit Committees the task to present the items which may pose a conflict of interest and any related items for the transaction over 2 Million Baht per quarter and reports it directly to the Board of Directors to acknowledge in a quarterly basis.

In the meeting of Board of Directors, should the Directors have interest in the decision, the Chairman of the Board will request for Directors to abiding to the regulation and have Director informed to the meeting and is asked not to vote or voice opinion for the matter.

Supervision on the of insider information : The monitoring of policy and measures are in written format with respect to the Corporate Good Governance and handbook for the Board of Directors which has already been discussed in the Board meeting. The top management of the Company have also been informed about the announcement of Securities and Exchange Commission which stated that the management (including the spouse and legitimate child who has not become sui juris - or, in other words, not yet 20 years of age) must report the change of stock ownership to the Securities and Exchange Commission as stipulated in the law called Securities and Exchange Commission Act B.E. 2535 in the section 59 within 3 days after the change of ownership of Securities taken place, and also report to the Company's secretary for acknowledgement so as to later inform to The Board of Directors. Moreover, the management in the meeting has also been informed about the penalty imposed upon those who violate the laws.

The Company has the policy that set the guideline for the practice of Corporate Good Governance, ethical practices of the Board of Directors, including the regulation that prohibit the staff from take Company's document or information for personal use, or bring outside the Company, without asking for permission. This also includes exposure of financial document or other related documents for outsider, and also prohibits the trading activity within 1 month prior to public release of financial information. If done so, the act can be considered 'misconduct' to the Company's rule of conducts. Should the management or staffs learn about significant insider information with regard to anyone who may violate such rule of conducts, the penalty can be ranged from warning, fine, work suspension, work without pay, job termination.

Controlling System and Internal Audit

1. Control and Internal Audit System, the Company sees the importance of internal control at the management and the operation level, so it has clearly prescribed duties and powers on the operation of the operators and the management, specifically in writing. There is a control on the use of the assets of the Company to the highest benefit, and there is the separation of duty between the operators, the controllers and evaluation, for suitable check and balance among each other. Moreover, there is internal control on the financial system and the Company has prepared the financial report for submission to the responsible management line of duty.

The Company has an internal audit unit responsible to reassure that the main practices and essential financial activities of the Company are in line with the guideline and are operated with effectiveness. It includes audit on legal compliance and compliance control as well as the independent internal audit and investor relations unit who is capable of independently performing the check and balance. Therefore, the Board of Directors has designated that the internal audit and investor relations unit to report the results of the audit directly to the audit Committee, and is also evaluated by the audit Committee.

2. Risk Management, the risks are regularly evaluated against business risk on the internal and external factors. The working Committees consist of management and high level executives in the line of work associated with each risk involved. The supervisor in each work unit related directly to this aspect and internal control unit will work towards analyzing the cause of risk factors and determine relevant measures to manage the risk, and also keep track on the operation of risk management plan and report the result back to audit Committees to present the finding to the Board of Directors.

The Board of Directors put forth the important of internal control system and risk management to build confident and trust that the risk is at the acceptable level and allocation and usage of resource can be correctly utilized and maximized, resulting better reliable financial information.

Board of Directors' Meeting

The Board of Directors has set in advance and held special meeting as necessary, by clear advance meeting date and has set regular follow-up on operation period. The Chairman of the Board of Directors and the Managing Directors jointly considered the meeting calendar, by considering important case. The each Director is permitted to present the issues in the meeting as needed. The secretary will prepare invitation letter along with meeting schedule and details prior to the actual meeting at least 7 days to allow time for the Board of Directors to peruse the information prior to the meeting.

In each meeting, the Chairman of the Board of Directors allocated adequate and long enough to allow Directors to clarify problematic issues prudently. Moreover, the Chairman of the Board of Directors and the Board of Directors invited high level executive to the Board of Directors' meeting to request for more information and recorded in minutes of the meetings that were filed and certified by the Board of Directors for the Board of Directors and involved parties to view.

The Board of Directors assigned the management executives to regularly prepare operation report to the Board of Directors on a monthly basis to allow the Board of Directors to follow up on the operation progress of the Company.

- **Continuous Improvement of Human Resources** : The Company has followed up on the productivity rate of the human resources using Key Performance Indicator or KPI to ensure the continuous improvement of the human resources' productivity. The Company emphasized on organizing a proper operation structure and plan for each situation, improving cost-effective operation system, providing tools and equipments to enhance performances, as well as training courses for employees to improve working skills.

One thing that the Company has believed in is the policy not to reduce or lay off employees in case of an economic crisis so that the employees can feel more confident in dedicating to their works which are mostly pioneer works.

Moreover, the Company always gives awards and bonuses for employees annually as an incentive for employees with outstanding performances.

- **Opportunity to Improve Potential and Leadership skill with Project leader System :** The Company has a policy to support aggressive working style of employees without having to rely on orders from leaders. With the Project Leader system Employees can use their own ideas to improve their performance and solve problems. They will be assigned a leader in a project and work with colleagues from the same department or different departments which will lead to a Cross Functional Team. Executive staff will act as a consultant.

Project Leader System can help the Company to move forward faster and be independent from the complicated control system. Employees will have a chance to perform their potentials and work closely with executives. They can also improve their leadership skill by learning from the executives, working as a team, understanding policy logics and other work limitations.

- **Close Relation Between Employees and Executives :** The Company's culture emphasizes on creating a close relationship between employees and executives without any double standard. Each employee is a part of the family and valuable to the Company. Every activity and corporation between executives and employees will go smoothly, challenging, and fun, under the family environment.

Such culture supports the Company's operation that can implement the Company's policy effectively, fast and productively. Every problem or obstacle will also be reported and solved immediately.

Employees at SE-ED Book Center branches across the country will have a chance to attend training programs at the head office regularly. The management team also visit the branches often to give advice for continuous improvement. Moreover, the Company has used the following IT technology to bridge the communications between the employees at the branches and the head office:

- ADSL (Asymmetric Digital Subscriber Line) is the system that can connect every branch to the head office and warehouse. The communication via telephone and email becomes more convenient and can help solving problems fast.
- LCD TVs installed at SE-ED Book Center branches allow the head office to send video and audio signal to employees so they can be informed about news, product information and seasonal services. Employees will also be trained from the head office via LCD TV any time.

- **The Culture of Service Mind, Merit Mind, Volunteer Mind and No Humiliation within the Organization through Employees of All Levels :** The Company always reminds employees that the Company has no policy to support any operation that violates laws or contradicts the society's moral system. Merit Mind then becomes the working standard of the whole organization, for both the executive staff and employees. Any new projects, marketing activities or products will have to comply with this standard and the Company's good will. The Company also supports any activity that helps uplifting the merit mind of employees such as the corporation with Panyanantaram Temple to organize a mind and moral development activity that will promote positive working awareness. Employees can also apply the same awareness in their own every day life.

Moreover, the Company also organizes trainings and seminars in 'Excellent Reactive Service or ERS' for employees. The objective is to build a service mind for customers and colleagues. The volunteer mind is also emphasized through activities supported by the Change of Kids project. Employees can volunteer to build libraries for schools in need and donate books. They can propose the schools in their local neighborhood. This activity does not only build a volunteer mind for employees but strengthen the relationship among employees as well. Employees will feel proud in being a part of supporting children who lack opportunities to become smarter, which is also the Company's determination to 'to make Smarter Thais'.

Internal Control

The Board of Directors and management has continued to stress the importance of internal control, by emphasizing on the adequate internal control system for business operation to maximize management as well as assets monitoring, reduction in possible errors, the Company's damage prevention, financial management, risk management, operation supervision, which reasonably ensures that the Company can operate as expected and maximized the added value in long run. In addition, The Board of Directors has made certain that all operations are within the rules and regulations stipulated by the laws to prevent any possible damage to the Company.

The Audit Committee has performed its duties within the framework of responsibilities assigned by the Company's Board of Directors, which is also consistent with the Stock Exchange of Thailand's stipulation. In the fiscal year 2015, there were 6 Audit Committee meetings in which attended along with the executives, auditors, accounting department and internal audit department. The remarks about the sufficiency of the internal audit system can be summarized as follows :

Part 1 Control Environment The Company determines business goals which are accurate, clear, possible and measurable. Moreover, the Company's structure supports the goals. There are regulations and penalties to prohibit executives and employees from possible conflict of interest. The Company, however, is in the stage of establishing policies and regulations about financial, purchasing and administrative transactions. All policies are based on fair business with partners for long-term benefit.

Part 2 Risk Assessment The Company always went through the risk assessment, both internal and external business risks. The working group consisting of the Managing Director, Deputy Managing Director, and assistant Managing Director related to the risk in each line of duty, and each division and department managers will analyze risk factors, as well as the control and follow-up action for risk administrative plans.

Part 3 Control Activities Executive Performance The administrative responsibilities include authorization, considering proper credit limit to be approved by executives in each level accounting and information booking and asset keeping. To authorize any transaction, 2 Directors have to co-sign documents.

Transaction authorization between the Company and major Shareholders, Director, executives, and related persons are regarded for these advantages, as with any external transactions with others.

Part 4 Information and Communications The Company provides enough information for Directors' decisions. However, in case of the change in last updated information, the Company may not be able to submit a financial statement with the meeting letter 7 days before the meeting, but it can be proposed just a day before, or at the meeting room.

Accounting documents are filed systematically in accordance with the accounting system for the purposes of business policy.

Part 5 Monitoring Activities The Company uses a follow up system comparing each quarter's goal, which is examined by the internal audit, by reporting the performance directly to the Audit Committee. When significant errors are encountered, the Internal Audit must immediately inform the Committee concerned, as well as the updated error correction report.

Moreover, the audit Committee has found that there were not any significant weaknesses, from effectiveness assessment, in the accounting control system.

In 2015, the Company had been continually affected by economic slowdowns, a decrease of net purchasing power, and rising household debt. Rapid changes in technology, especially in digital devices and digital media, also affected the sales of print publications in every sector, aligning with the decline in the general retail business.

To alleviate the situation, the Company decided to close down 9 small unprofitable branches in 2015 and canceled the rental contract of the old warehouse, which tends to raise rental fees every year. To reduce the financial burden in the long run, the Company had the new warehouse constructed. It officially opened in 2014. As a result, the Company had long-term loans with interest from building this warehouse.

In 2015, the Company had opened new seven branches of SE-ED Book Center. The total number of active branches as of December 31, 2015 was 410 branches, included six points of sale.

The Company has opened two more branches of SE-ED Learning Center and closed seven branches. The total number of active branches as of December 31, 2015 is 21 branches. Seven branches are located in Bangkok Metropolitan Region and fourteen branches are located all over the country. There are two branches operated by the Company and 19 branches are run by franchisees.

OPERATING RESULTS For the year ended December 31, 2015 the financial information can be summarized as follows:

The company and its subsidiaries' total revenue according to the consolidated financial statement 2015 for the year ended December 31, 2015 totals THB 4,542.57 million or a decrease of 8.51% from the previous year. The total revenue from the separate financial statement totals THB 4,380.13 million, or a decrease of 8.93%. The decrease results from the drop in the SE-ED Book Center same-store sales revenue by 9.05%

Net Profit to the consolidated financial statements for the year ended December 31, 2015 amounted to THB 76.51 million, decreased by THB 14.38 million or a decrease of 15.83% can be summarized as follows:

- Gross profit for the year ended December 31, 2015 was THB 1,541.67 million, decreased by THB 135.46 million or 8.08% from last year. However, gross profit margin in 2015 was THB 34.29%, increased by 0.15% from last year. This was the result of the decreased retailing sales of 10.78% affected by the condition of the retailing business and economic slowdowns.
- However gross margin in 2015 was 34.29%, increased by 0.15% from last year due to an 11.18% increase of imported products and higher sales of textbooks sold to educational institutions through distribution channel.
- Cost of sales and services according to consolidated financial statements for the year ended December 31, 2015 was THB 2,954.87 million, decreased by THB 280.66 million or 8.67%, which related to the 8.47% decreased sales.
- Selling General, administrative expenses decreased by 8.21% because of the following factors:
 - The rental fee and service fee of the Headquarter and branches decreased by 10.21% from termination of the rental contract of the old warehouse located on Kingkaew district. The rental fee and service fee of branches decreased because the lease contract was changed from a fixed term to a percentage of sales.
 - Employees' expenses decreased, aligning with a decreased number of the branches. Despite the fact that the provision for long-term employee benefits increased according to the new financial reporting standards by 42.24%.
 - Due to the higher turnover rate of the products, the provision for slow-moving products decreased. The expenses from the provision for deteriorate and slow-moving products decreased by 88.68% thanks to special promotions.
 - In addition, the Company had recorded loss from the high variation of exchange rate of GBP currency.
- As a result of getting loans at the end of 2014, the interest increased by 49.15%.

EBITDA decreased by THB 18.07 million due to a 17.97% decrease of net profit. This was affected by the slowdown in the retail business, especially at the end of the year in Q4/2015, sales decreased by 12.04%. In addition, the Company was affected by adjusting the formula for employees' long term benefits according to new financial reporting standards which was recently enforced in 2015.

◆ Independent Auditor's Report

To the Shareholders of SE-EDUCATION PUBLIC COMPANY LIMITED

I have audited the accompanying consolidated financial statements of SE-EDUCATION PUBLIC COMPANY LIMITED and its subsidiaries, which comprise the consolidated statement of financial position as at 31 December 2015, and the related consolidated statements of income, comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information, and have also audited the separate financial statements of SE-EDUCATION PUBLIC COMPANY LIMITED for the same period.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with Thai Standards on Auditing. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of SE-EDUCATION PUBLIC COMPANY LIMITED and its subsidiaries and of SE-EDUCATION PUBLIC COMPANY LIMITED as at 31 December 2015, and their financial performance and cash flows for the year then ended, in accordance with Thai Financial Reporting Standards.

3. New financial reporting standards

Below is a summary of financial reporting standards that became effective in the current accounting year and those that will become effective in the future.

(a) Financial reporting standards that became effective in the current year

The Company and its subsidiaries has adopted the revised (revised 2014) and new financial reporting standards issued by the Federation of Accounting Professions which become effective for fiscal years beginning on or after 1 January 2015. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards, with most of the changes directed towards revision of wording and terminology, and provision of interpretations and accounting guidance to users of standards. The adoption of these financial reporting standards does not have any significant impact on the Company's and its subsidiaries financial statements. However, some of these standards involve changes to key principles, which are summarised below:

TAS 19 (revised 2014) Employee Benefits

This revised accounting standard requires that the entity recognise actuarial gains and losses immediately in other comprehensive income while the former accounting standard allowed the entity to recognise such gains and losses immediately in either profit or loss or other comprehensive income, or to recognise them gradually in profit or loss.

The Company and its subsidiaries have changed the recognition of actuarial gains and losses in the current period from an immediate recognition in profit or loss to an immediate recognition in other comprehensive income and adjusted the current period's transactions and restated the prior period's financial statements, presented as comparative information, as if the Company had always applied this accounting policy. The cumulative effect of changes in accounting policies is presented in Note 4.

TFRS 10 Consolidated Financial Statements

TFRS 10 prescribes requirements for the preparation of consolidated financial statements and replaces the content of TAS 27 *Consolidated and Separate Financial Statements* dealing with consolidated financial statements. This financial reporting standard changes the principles used in considering whether control exists. Under this financial reporting standard, an investor is deemed to have control over an investee if it has rights, or is exposed, to variable returns from its involvement with the investee, and it has the ability to direct the activities that affect the amount of its returns, even if it holds less than half of the shares or voting rights. This important change requires the management to exercise a lot of judgement when reviewing whether the Company and its subsidiaries have control over investees and determining which entities have to be included in preparation of the consolidated financial statements.

This financial reporting standard does not have any impact on the Company's and its subsidiaries' financial statements.

TFRS 11 Joint Arrangements

TFRS 11 supersedes TAS 31 *Interests in Joint Ventures*. This financial reporting standard requires an entity investing in any other entity to determine whether the entity and other investors have joint control in the investment. When joint control exists, there is deemed to be a joint arrangement and the entity then needs to apply judgement to assess whether the joint arrangement is a joint operation or a joint venture and to account for the interest in the investment in a manner appropriate to the type of joint arrangement. If it is a joint operation, the entity is to recognise its shares of assets, liabilities, revenue and expenses of the joint operation, in proportion to its interest, in its separate financial statements. If it is a joint venture, the entity is to account for its investment in the joint venture using the equity method in the financial statements in which the equity method is applied or the consolidated financial statements (if any), and at cost in the separate financial statements.

This financial reporting standard does not have any impact on the Company's and its subsidiaries' financial statements.

TFRS 12 Disclosure of Interests in Other Entities

This financial reporting standard stipulates disclosures relating to an entity's interests in subsidiaries, joint arrangements and associates, including structured entities. This standard therefore has no financial impact on the financial statements of the Company and its subsidiaries.

TFRS 13 Fair Value Measurement

This financial reporting standard provides guidance on how to measure fair value and stipulates disclosures related to fair value measurement. Entities are to apply the guidance under this financial reporting standard if they are required by other financial reporting standards to measure their assets or liabilities at fair value. The effects of the adoption of this standard are to be recognised prospectively.

This financial reporting standard does not have any significant impact on the Company's and its subsidiaries' financial statements.

(b) Financial reporting standard that will become effective in the future

During the current year, the Federation of Accounting Professions issued a number of the revised (revised 2015) and new financial reporting standards and accounting treatment guidance which is effective for fiscal years beginning on or after 1 January 2016. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards. The Company's management believes that the revised and new financial reporting standards and accounting treatment guidance will not have any significant impact on the financial statements when it is initially applied.

4. Cumulative effect of changes in accounting policies due to the adoption of new financial reporting standard

As described in Note 3, during the current year, the Company and its subsidiaries have changed some of their accounting policies, as a result of the adoption of new and revised financial reporting standards. The cumulative effect of the change has been separately presented in the statements of changes in shareholders' equity.

The amounts of adjustments affecting the statements of comprehensive income are summarised below.

(Unit: Thousand Baht)

	For the year ended 31 December 2014	
	Consolidated financial statements	Separate financial statements
Statements of comprehensive income		
Profit or loss:		
Decrease in actuarial losses	6,220	6,712
Increase in income tax expenses	1,342	1,342
Increase in profit for the year	4,878	5,370
Other comprehensive income:		
Increase in actuarial losses - net of income tax	4,878	5,370
Decrease in other comprehensive income	4,878	5,370
Earnings per share (Baht):		
Increase in basic earnings per share	0.01	0.01

5. Significant accounting policies

5.1 Revenues recognition

- Sales of goods are recognised when the significant risks and rewards of ownership of the goods have passed to the buyer. Sales are the invoiced value, excluding value added tax, of goods supplied after deducting discounts and allowances, except for consignment where the revenue from consignment is recognized when the event of either the sales report is received or the payment is received first.
- Advertising service revenue is recognised when services have been rendered taking into account the stage of completion.
- School entrance fees are recognised as income at the time of acceptance of the students by the subsidiary.

- d) Education supporting fees are recognised as income of the school term to which they relate.
- e) Interest income is recognised on an accrual basis based on the effective interest rate.
- f) Dividends are recognised when the right to receive the dividends is established.

5.2 Cash and cash equivalents

Cash and cash equivalents consist of cash in hand and at banks, and all highly liquid investments with an original maturity of three months or less and not subject to withdrawal restrictions.

5.3 Trade and other receivables/Allowance for doubtful accounts and returned goods

Trade and other receivables are stated at the net realisable value. Allowance for doubtful accounts is provided for the estimated losses that may be incurred in collection of receivables. The allowance is generally based on collection experience and analysis of debt aging.

Allowance for returned goods is based on the percentage of the average returned goods for the year of provincial accounts receivable at the end of the period.

5.4 Inventories/Allowance for dilapidated, slow moving and loss of inventories

Finished goods are valued at the lower of cost (weighted average) and net realisable value. Cost includes all production costs and attributable factory overheads.

Work in process are valued at the lower of standard cost (which approximates actual cost) and net realisable value.

Raw materials are valued at the lower of average cost and net realisable value and are charged to production costs whenever consumed.

Allowance for dilapidated and slow moving is based on the percentage of the inventory turnover in conjunction with the consideration of the book editor.

Allowance for lost goods are charged at rates of 0.30% for each sales branch. The reversal of such allowance incurred when the inventory taking and inventories lost actually at the branch.

5.5 Investments

- a) Investments in available-for-sale securities are stated at fair value. Changes in the fair value of these securities are recorded in other comprehensive income, and will be recorded in profit or loss when the securities are sold.
- b) Investments in associate are accounted for in the consolidated financial statements using the equity method.
- c) Investments in subsidiaries and associate are accounted for in the separate financial statements using the cost method net of provision for impairment of investments (if any).

The fair value of marketable securities is based on the latest bid price of the last working day of the year. The fair value of debt instruments is determined based on yield rates quoted by the Thai Bond Market Association. The fair value of unit trusts is determined from their net asset value.

The weighted average method is used for computation of the cost of investments.

5.6 Property, plant and equipment/Depreciation

Land and building and improvement are stated at revalued amount less accumulated depreciation and allowance for loss on impairment of assets (if any).

Land and buildings are initially recorded at cost on the acquisition date, and subsequently revalued by an independent professional appraiser to their fair values. Revaluations are made every 5 year to ensure that the carrying amount does not differ materially from fair value at the end of reporting period.

Equipments are stated at cost less accumulated depreciation and allowance for loss on impairment of assets (if any).

Differences arising from the revaluation are dealt with in the financial statements as follows:

- When an asset's carrying amount is increased as a result of a revaluation of the Company's assets, the increase is credited directly to the other comprehensive income and the cumulative increase is recognised equity under the heading of "Revaluation surplus". However, a revaluation increase is recognised as income to the extent that it reverses a revaluation decrease in respect of the same asset previously recognised as an expense.
- When an asset's carrying amount is decreased as a result of a revaluation of the Company's assets, the decrease is recognised in profit or loss. However, the revaluation decrease is charged to the other comprehensive income to the extent that it does not exceed an amount already held in "Revaluation surplus" in respect of the same asset.

Depreciation of building and equipment is calculated by reference to their costs or the revalued amounts on the straight-line basis over the following estimated useful lives:

Land improvement	10 - 50 years
Buildings and building improvement	5 - 50 years
Building decorations	5 - 6 years
Office equipment and air conditioners	5 - 10 years
Motor vehicles	5 - 10 years

Depreciation is included in determining income.

No depreciation is provided on land and assets under installation.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on disposal of an asset is included in profit or loss when the asset is derecognised.

5.7 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective assets. All other borrowing costs are expensed in the period they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

5.8 Intangible assets

Intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses (if any).

Intangible assets with finite lives are amortised on a systematic basis over the economic useful life and tested for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method of such intangible assets are reviewed at least at each financial year end. The amortisation expense is charged to profit or loss.

A summary of the intangible assets with finite useful lives is as follows:

	Useful lives
Computer software	5 - 10 years
Book copyright and translation fee	Amortised per number of book sold

5.9 Leasehold rights on land and buildings/Amortisation

Leasehold rights on land and buildings are stated at cost less accumulated amortisation and allowance for loss on impairment of assets (if any). Amortisation of leasehold rights on land and buildings calculate base on the straight-line basis over the lease term.

The amortisation expense are included in determining income.

5.10 Related party transactions

Related parties comprise enterprises and individuals that control, or are controlled by, the Company, whether directly or indirectly, or which are under common control with the Company.

They also include associated companies and individuals which directly or indirectly own a voting interest in the Company that gives them significant influence over the Company, key management personnel, directors, and officers with authority in the planning and direction of the Company's operations.

5.11 Long-term leases

Leases of property, plant or equipment which transfer substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lower of the fair value of the leased assets and the present value of the minimum lease payments. The outstanding rental obligations, net of

finance charges, are included in long-term payables, while the interest element is charged to profit or loss over the lease period. The assets acquired under finance leases are depreciated over the useful life of the asset.

Leases of property, plant or equipment which do not transfer substantially all the risks and rewards of ownership are classified as operating leases. Operating lease payments are recognised as an expense in profit or loss on a straight line basis over the lease term.

5.12 Foreign currencies

The consolidated and separate financial statements are presented in Baht, which is also the Company's functional currency. Items of each entity included in the consolidated financial statements are measured using the functional currency of that entity.

Transactions in foreign currencies are translated into Baht at the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into Baht at the exchange rate ruling at the end of reporting period.

Gains and losses on exchange are included in determining income.

5.13 Impairment of assets

At the end of each reporting period, the Company and its subsidiaries perform impairment reviews in respect of the property, plant and equipment and other intangible assets whenever events or changes in circumstances indicate that an asset may be impaired. An impairment loss is recognised when the recoverable amount of an asset, which is the higher of the asset's fair value less costs to sell and its value in use, is less than the carrying amount.

An impairment loss is recognised in profit or loss. However in cases where property, plant and equipment were previously revalued and the revaluation was taken to equity, a part of such impairment is recognised in equity up to the amount of the previous revaluation.

In the assessment of asset impairment if there is any indication that previously recognised impairment losses may no longer exist or may have decreased, the Company and its subsidiaries estimate the asset's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The increased carrying amount of the asset attributable to a reversal of an impairment loss shall not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in profit or loss unless the asset is carried at a revalued amount, in which case the reversal, which exceeds the carrying amount that would have been determined, is treated as a revaluation increase.

5.14 Employee benefits

Short-term employee benefits

Salaries, wages, bonuses and contributions to the social security fund are recognised as expenses when incurred.

Post-employment benefits and other long-term employee benefits

Defined contribution plans

The Company and its employees have jointly established a provident fund. The fund is monthly contributed by employees and by the Company. The fund's assets are held in a separate trust fund and the Company's contributions are recognised as expenses when incurred.

Defined benefit plans and other long-term employee benefits

The Company and its subsidiaries have obligations in respect of the severance payments it must make to employees upon retirement under labor law and other employee benefit plans. The Company and its subsidiaries treat these severance payment obligations as a defined benefit plan. In addition, the Company provides other long-term employee benefit plan, namely long service awards.

The obligation under the defined benefit plan and other long-term employee benefit plans is determined by the director of human resource and organisation development of the Company, based on actuarial techniques, using the projected unit credit method.

Actuarial gains and losses arising from post-employment benefits are recognised immediately in other comprehensive income and other long-term benefits are recognised immediately in profit and loss.

5.15 Provisions

Provisions are recognised when the Company and its subsidiaries have a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

5.16 Income tax

Income tax expense represents the sum of corporate income tax currently payable and deferred tax.

Current tax

Current income tax is provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

Deferred tax

Deferred income tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the end of each reporting period, using the tax rates enacted at the end of the reporting period.

The Company and its subsidiaries recognise deferred tax liabilities for all taxable temporary differences while they recognise deferred tax assets for all deductible temporary differences and tax losses carried forward to the extent that it is probable that future taxable profit will be available against which such deductible temporary differences and tax losses carried forward can be utilised.

At each reporting date, the Company and its subsidiaries review and reduce the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

The Company and its subsidiaries record deferred tax directly to shareholders' equity if the tax relates to items that are recorded directly to shareholders' equity.

5.17 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between buyer and seller (market participants) at the measurement date. The Company and its subsidiaries apply a quoted market price in an active market to measure their assets and liabilities that are required to be measured at fair value by relevant financial reporting standards. Except in case of no active market of an identical asset or liability or when a quoted market price is not available, the Company and its subsidiaries measure fair value using valuation technique that are appropriate in the circumstances and maximises the use of relevant observable inputs related to assets and liabilities that are required to be measured at fair value.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into three levels based on categorise of input to be used in fair value measurement as follows:

Level 1 - Use of quoted market prices in an observable active market for such assets or liabilities

Level 2 - Use of other observable inputs for such assets or liabilities, whether directly or indirectly

Level 3 - Use of unobservable inputs such as estimates of future cash flows

At the end of each reporting period, the Company and its subsidiaries determine whether transfers have occurred between levels within the fair value hierarchy for assets and liabilities held at the end of the reporting period that are measured at fair value on a recurring basis.

6. Significant accounting judgements and estimates

The preparation of financial statements in conformity with financial reporting standards at times requires management to make subjective judgements and estimates regarding matters that are inherently uncertain. These judgements and estimates affect reported amounts and disclosures; and actual results could differ from these estimates. Significant judgements and estimates are as follows:

Consolidation of subsidiaries that the Company holds less than half of shares

The management of the Company determined that the Company has control over Plearn Patt Company Limited, even though the Company holds 48.97% of shares and voting rights that is less than half of shares and voting rights. This is because the Company is a major shareholder and has the ability to direct the significant activities, while other shareholders are only minor shareholders. As a result, Plearn Patt Company Limited is deemed to be a subsidiary of the Company and has to be included in the consolidated financial statements from the date on which the Company assumed control.

Leases

In determining whether a lease is to be classified as an operating lease or finance lease, the management is required to use judgement regarding whether significant risk and rewards of ownership of the leased asset has been transferred, taking into consideration terms and conditions of the arrangement.

Allowance for doubtful accounts

In determining an allowance for doubtful accounts, the management needs to make judgement and estimates based upon, among other things, past collection history, aging profile of outstanding debts and the prevailing economic condition.

Fair value of financial instruments

In determining the fair value of financial instruments recognised in the statement of financial position that are not actively traded and for which quoted market prices are not readily available, the management exercise judgement, using a variety of valuation techniques and models. The input to these models is taken from observable markets, and includes consideration of credit risk (bank and counterparty, both) liquidity, correlation and longer-term volatility of financial instruments. Change in assumptions about these factors could affect the fair value recognised in the statement of financial position and disclosures of fair value hierarchy.

Provision for diminution in value of inventories

In determining of provision for diminution in value of inventories (allowance for dilapidated, slow moving and lost goods), the management needs to make judgement and estimates based upon, among other things, past goods returned history, inventory turnover, the consideration of the book edition and past good lost history.

Impairment of investments in securities

The Company and its subsidiaries treats available-for-sale investments and other investments as impaired when there has been a significant or prolonged decline in the fair value below their cost or where other objective evidence of impairment exists. The determination of what is "significant" or "prolonged" requires judgement of the management.

Property, plant and equipment/Depreciation

In determining depreciation of plant and equipment, the management is required to make estimates of the useful lives and residual values of the plant and equipment and to review estimate useful lives and residual values when there are any changes.

The Company and its subsidiaries measures land and buildings at revalued amounts. Such amounts are determined by the independent valuer using the market approach for land and the cost approach for buildings. The valuation involves certain assumptions and estimates as described in Note 16.

In addition, the management is required to review property, plant and equipment for impairment on a periodical basis and record impairment losses when it is determined that their recoverable amount is lower than the carrying amount. This requires judgements regarding forecast of future revenues and expenses relating to the assets subject to the review.

Deferred tax assets

Deferred tax assets are recognised for deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the temporary differences and losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of estimate future taxable profits.

Post-employment benefits under defined benefit plans and other long-term employee benefits

The obligation under the defined benefit plan and other long-term employee benefit plans is determined based on actuarial techniques. Such determination is made based on various assumptions, including discount rate, future salary increase rate and staff turnover rate.

7. Related party transactions

16. Property, plant and equipment

(Unit : Thousand Baht)

[illegible]

(Unit : Thousand Baht)

[illegible]

The Company and a subsidiary company arranged for an independent professional valuer to appraise the value of certain assets in 2012 on an asset-by-asset basis. The basis of the revaluation was as follows:

- Land was revalued using the Market approach.
- Land and buildings were revalued using the Cost approach, which represents the estimated cost to construct a new building at the current replacement cost less depreciation based on useful life and plus the market value of the land.

Key assumptions used in the valuation are summarized below:

	Consolidated financial statements	Separate financial statements	Result to fair value where as an increase in assumption value
Buildings - price per square metre (Baht)	800 - 12,000	5,551	Increase in fair value
Land - price per square wah (Baht)	18,000 - 120,000	18,000 - 120,000	Increase in fair value
Leasehold right on land - price per square wah (Baht)	4,100	-	Increase in fair value

Had the land and buildings been carried in the financial statements based on historical cost, their net book values as of 31 December 2015 and 2014 would have been as follows:

(Unit : Thousand Baht)

	Consolidated financial statements		Separate financial statements	
	2015	2014	2015	2014
Land and land improvement	349,273	350,646	324,770	324,770
Buildings and building improvement	163,131	171,424	-	-

As at 31 December 2015, certain plant and equipment were fully depreciated but are still in use. The gross carrying amount before deducting accumulated depreciation and allowance for impairment loss of those assets amounted to approximately Baht 658.0 million (2014: Baht 712.7 million) (the Company only: Baht 628.1 million, 2014: Baht 687.2 million).

17. Leasehold right on land

The whole amount of the leasehold rights consisted of two land lease agreements which the subsidiary entered into with its shareholders totalling Baht 10 million. It is related to the lease of land area of approximately 20 rais for the period of 30 years for the purpose of operating an education institute. The contracts stipulate that, during the contractual period, the lessor agreed not to sell the leased land to anyone without obtaining prior consent from the subsidiary and, if the lessor has the utmost need and could not find any other alternative, the lessor promises to offer the land for sale to the subsidiary first at an arm's-length price. If the subsidiary does not respond to the offer within 60 days, the lessor is entitled to sell the leased land to a third party who will be obliged to bind himself or herself to the conditions stipulated in these lease contracts.

During the year ended 31 December 2015, the subsidiary amortised leasehold rights as expense totalling Baht 0.33 million (2014: Baht 0.33 million).

18. Leasehold right on buildings

The whole amount of the leasehold on buildings represented leased areas in leading shopping centers in order to open SE-ED Book Center. The terms of these leaseholds range between 10 to 30 years. For the year ended 31 December 2015, the Company amortised leasehold rights as expenses totalling Baht 11.3 million (2014: Baht 12.8 million).

30. Segment information

Operating segment information is reported in a manner consistent with the internal reporting the chief operating decision maker has received and regularly reviewed to make decisions about resources to be allocated to the segment and assess its performance.

For management purposes, the Company and its subsidiaries are organised into business units based on the sales channels of products and services and have three reportable segments (1) retail business (2) other distribution channels and (3) institution of private education business.

No operating segments have been aggregated to form the above reportable operating segments.

The chief operating decision maker monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and assessing performance. Segment performance is measured based on operating profit or loss and is measured consistently with operating profit or loss in the financial statements. However, the Company and its subsidiaries financing (including finance costs and finance income) and income taxes are managed on a Group basis and are not allocated to operating segments.

Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third parties.

Inter-segment revenues are eliminated on consolidation.

The following table present revenue and profit information regarding the Company's and its subsidiaries' operating segments for the year ended 31 December 2015 and 2014, respectively.

Foreign currency risk

The Company's exposure to foreign currency risk arises mainly from trading transactions that are denominated in foreign currencies. The Company seeks to reduce this risk by entering into forward exchange contracts when it considers appropriate. Generally, the forward contracts mature within one year.

The balances of financial assets and liabilities denominated in foreign currencies are summarised below.

Foreign currency	Financial assets		Financial liabilities		Average exchange rate	
	as at 31 December		as at 31 December		as at 31 December	
	2015	2014	2015	2014	2015	2014
	(Thousand)	(Thousand)	(Thousand)	(Thousand)	(Baht per 1 foreign currency unit)	
USD	-	-	89	14	36.2538	33.1132
SGD	-	3	68	-	25.7905	25.1274
GBP	-	-	853	892	53.9343	51.5035

35.2 Fair values of financial instruments

Since the majority of the Company and its subsidiaries' financial instruments are short-term in nature or bear floating interest rates, their fair value is not expected to be materially different from the amounts presented in statements of financial position.

A fair value is the amount for which an asset can be exchanged or a liability settled between knowledgeable, willing parties in an arm's length transaction. The fair value is determined by reference to the market price of the financial instruments or by using an appropriate valuation technique, depending on the nature of the instrument.

36. Capital management

The primary objective of the Company's capital management is to ensure that it has an appropriate financial structure and preserves the ability to continue its business as a going concern.

The Group's total liabilities to shareholders' equity ratio as at 31 December 2015 was 1.61:1 (2014: 1.84:1), and the Company only was 1.61:1 (2014: 1.84:1).

37. Event after the reporting period

The meeting of the Company's Board of Directors held on 26 February 2016 passed a resolution to pay dividends to the Company's shareholders from the operations for the year 2015. The Company will pay a cash dividend at Baht 0.12 per share, or equivalent to amount of not exceed Baht 47.03 million. Dividend will be paid and accounted for after the approval of the Annual General Meeting of the Company's shareholders.

38. Approval of financial statements

These financial statements were authorised for issue by the Company's Board of Directors on 26 February 2016.
